TRIBUTE TO NARESH CHANDRA

**Remembering Mr. Naresh Chandra, our
Chairman and Non-Executive Director**

A civil servant par excellence and a visionary leader, he rose to become the Cabinet Secretary in 1990, the highest position in the Indian Civil Service. In 1992, he was appointed Senior Advisor to the Prime Minister of India. He was the Governor of the state of Gujarat in 1995-1996 and India's Ambassador to the United States of America during 1996- 2001. He also chaired the Committee on Corporate Audit and Governance, the Committee on Private Companies and Limited Liability Partnerships and the Committee on Civil Aviation Policy, for the Government of India. He was honoured with the Padma Vibhushan, a high civilian award by the President of India in 2007.

Mr. Chandra was associated with the Company as Chairman since September 2009 and was also a member/chairman of various committees of the Board. The Company has immensely benefited from his guidance and support during his tenure. The Board of Directors and employees of Eros International Group deeply mourn this irreparable loss.

It is the collective energy and excitement of our people to make our brand shine brighter with its universal appeal.

During the year, our passion translated into encouraging results and enhanced the value proposition for all stakeholders.

We extended reach via distribution in new markets, enriched our library and continued to focus on building our scale to produce and co-produce a wider slate of films across multiple languages.

Trinity Pictures, India's first franchise-driven studio, has five franchise

properties in various stages of development and production which will be monetised across film, merchandising and gaming amongst others, over the next couple of years.

We further focused our efforts towards investing in building our content library that can be monetised consistently.

We also continued to expand our digital reach by providing our content to our parent, Eros International Plc's OTT Platform, Eros Now to further expand global reach.

Passion speaks many languages at EROS, and it determines the future course of our business.

Diversified revenue streams and pre-sale strategies mitigate risk promoting stable cash flow generation

For nearly four decades, we have translated our passion into a force of creative energy. The result is content that excites, engages and endears a huge audience cross-section.

We are a leading global enterprise in the Indian film entertainment industry who have acquired, co-produced and distributed some of the most successful Indian films across formats.

With an extensive and growing movie library comprising 2,000+ films, across genres, budgets and languages, our business model has evolved on the back of a refined content mix with clutter-breaking releases.

Given the strength of our distribution capability, we have released a higher number of Indian language films nationally and internationally than any other film studio for many successive years.

Executive Vice Chairman & Managing Director's Message

Dear Shareholders,

I am delighted to write to you at the end of another satisfying and exciting year at Eros International. Despite a challenging external environment, FY2017 has been a year in which Eros progressed on its business momentum and strategic initiatives.

Driven by passion

At Eros, we are driven by passion. Not just for entertaining people, but to make wonderful films and bring the best content to viewers in every corner of the world. This passion is evident in the way we run our business and the manner in which our people approach it. We are

proud to be a people-led organisation, where the collective excitement and energy of our entire team helps bring moments of happiness, joy and unique entertainment to more than a billion people around the world.

We are a company that enjoys a leadership position in markets that continue to be on a long-term growth trajectory. Over the last year, we made targeted investments in content, brands and markets that provide attractive growth opportunities. A glance at the span of our operations will reveal that consistent content innovation, and a robust business model underpin our financial resilience.

Our pursuit of creative and operational excellence is our key competitive advantage. FY2017 continued that tradition and the Company reported an encouraging performance, despite the temporary impact on revenue from theatrical releases in the second half of the year.

Diversified thinking

This year audiences have been able to choose from a variety of releases. India's film industry has experienced diverse growth with the exploration of high concept, new genres and relatable stories. Regional content continued to make encouraging headway and engage growing audiences. With the gradual emergence of Tier II and Tier III cities on the multiplex map, the acceptance of niche movies accelerated vis-à-vis traditional commercial cinema.

A significant development during the year was the growing importance of 'Bharat', i.e. the rural India due to the implementation of the new TV audience measurement system BARC. This has created a surge in the demand for new film releases as well as our film library, as film content is an effective means for satellite channels to penetrate the rural markets.

As additional multiplex screens are added, theatrical revenues have a potential to grow significantly. In addition, the large-scale acceptance and successful theatrical release of our regional movies validates our increasing focus on language diversity in our content. At Eros, we are poised to take advantage of opportune upcoming trends and shifts in the market. As we expand into other regional languages such as Marathi, Bengali, Punjabi and Malayalam, we may see the composition of our film mix changing over time to allow us to successfully scale our business with a diversified portfolio of content.

Encouraging performance

Theatrical revenues during FY2017 were driven by releases of *Ki & Ka*, *Housefull 3*, *Nil Battey Sannata*, *Dishoom*, *Happy Bhaag Jayegi*, *Baar Baar Dekho*, *Banjo*, *Rock On 2*, *Kahaani 2* (overseas), and regional films include *24* (Tamil), *Sardar Gabbar Singh* (Telugu), *Janatha Garage* (Telugu), *C/O. Saira Banu* (Malayalam), *Baghtos Kay Mujra Kar* (Marathi), *Chaar Sahibzaade2* (Punjabi) and *Double Feluda* (Bengali), to name a few. We released 44 films, which included 5 high budget, 10 medium budget and 29 small budget films. The highlight of the year was a steady growth in our profit margins. EBIT margin expanded to 26.1%, compared to 21.8% in FY2016 and our PAT margin improved to 17.8%, compared to 14.7% in FY2016. This growth was majorly driven by higher contribution from catalogue revenues.

In FY2017, our strong regional library, active pre-sales and catalogue monetisation of 2000+ films' library continued to serve us well both from a performance and a risk management perspective. 96% of the cost of the total film slate released in FY2017 was recovered through pre-sales across all revenue streams, including theatrical, satellite and overseas, which reflects our disciplined approach to risk management. As a part of our long-standing relationships with the television industry, we signed television syndication deals with several major networks such as ZEE TV, Star TV, Colors and Sony TV.

Leveraging our content strength

As India increasingly becomes the market of choice for global expansion for many International entertainment and digital companies, content will take centre stage. As the prices for film content rise, Eros' key asset – a market-leading film library – is a major beneficiary of this trend. Not only does our content experience theatrical release, it crosses borders and languages, engages a

nation across all screens; from theatrical to your handset.

We had been gearing up to leverage our industry knowledge and understanding to develop our own intellectual properties. Aside from further efficiency across the value chain, this will help to increase the revenue potential through Indo-China co-productions, or bi to tri-linguals i.e. films that are shot simultaneously in two or three India languages, but it will also help optimise content costs. The launch of Trinity Pictures, investments in our joint venture Colour Yellow Productions and leveraging our film library to launch sequels to successful films are concrete steps taken in this direction. We are excited about these developments and are looking forward to FY2018, which will see these plans come to fruition.

We have strong international distribution capabilities through our parent company, Eros International Plc's, which has a well-established, worldwide and multi-channel distribution network. The network extends over 50 countries across theatrical, television and digital formats to cater to the global film-loving South Asian diaspora as well as crossover audiences.

Growing digitisation

Today, quality and diversified content has increasing appeal than perhaps any other time in the past. Our parent Eros International Plcs' OTT platform Eros Now is enabling the wider availability of content on demand and on the go. It is driving innovation in content creation, marketing and distribution through our strategic partnerships with telecom companies, OEMs and payment wallets.

Apple has featured the Eros Now App in its 'App Store Best of 2016', which is a testament of our achievement. We are pleased with Eros Now's progress and are excited about what the future unfolds. Eros Now has over 2.9 million paying

subscribers and with 68 million registered users we believe that this is just the tip of the iceberg.

Leading the future

We are drawing upon our core strengths, as we continue to fulfil our aspiration to be The Company people turn to for the stories that shape and enrich their lives.

In FY2018, we continue to be focused on ramping up our own productions and co-productions through Trinity Pictures and Colour Yellow Production. We will also continue to expand our regional presence with 25+ releases across Tamil, Telugu, Malayalam, Bengali, Marathi, Kannada and Punjabi languages.

At the heart of Eros International's consistent performance is the ability to stay agile in the face of a rapidly changing ecosystem. The face of agility at Eros is our talented and driven team. Our people are paving the way towards achieving our long-term objectives.

We continue to upgrade the skills of our employees and bring on board fresh talent from diverse backgrounds to enhance our future readiness. It is their passion to bring clutter-breaking content to the market and distribute globally that helps us chart a market-leading success story.

I am confident that our passion to deliver engaging content with a robust business model will enable us to create value for all stakeholders in the years to come.

I seek your continued support and encouragement in this endeavour.

Warm Regards,
Sunil Lulla

REGIONAL
LANGUAGES

LEADING WITH SCALE

In FY2018, we plan to produce and co-produce a wide portfolio of films across multiple languages, and release the most diversified and robust slate by any Indian studio this year. Additionally, we intend to selectively acquire content to expand our library.

DRIVING REGIONAL FOCUS

In FY2018, we will continue to expand our regional presence with releases across Tamil, Telugu, Malayalam, Marathi, Bengali, Kannada and Punjabi. We also intend to exploit re-make rights to some of our popular Hindi films into non-Hindi languages.

Content is king on the global film landscape. Worldwide audiences seek differentiated and engaging content that bring imagination and ingenuity to the fore.

The demand for 'what's trending across the world' coexists with audiences

growing preferences for content in different languages and genres of choice. At Eros, it has been our constant endeavour to cater to this evolving tastes of our consumers. Our core business philosophy is to create content in line with the aspirations of varied markets.

“While Hindi films retain a broad appeal across India, the country’s linguistic diversity allows us to treat regional language films as distinct markets.”

Nandu Ahuja
Senior Vice President, India,
Theatrical Eros

In FY2017, we released a total of 44 films, including 5 high budget, 10 medium budget and 29 low budget films across languages like Hindi, Tamil, Malayalam, Telugu, Marathi, Punjabi and Bengali.

Globally, the Indian film industry and its growing audiences has attracted significant interest and has, in turn, attracted a lot of international majors to enter India. We see this as an opportunity for growing revenues from our 2000+ library of existing content and the robust pipeline of new releases.

We look forward to FY2018, where many of our passions will come to fruition. Whether it be through Trinity Pictures’ slate or Indo-Russian or Indo-China relationships.

Our recent association with Phars Films, one of UAE’s largest distribution and exhibition network is another steps on this direction. We will co-produce Malayalam content along with exploration of theatrical rights between the two entities.

Theatrical Distribution

We distribute our content across 14 ‘film territories’ in India through our internal distribution offices (Mumbai, Delhi, East Punjab, Mysore, Kerala, West Bengal and Bihar) or through sub-distributors in remaining territories. The film territories where we have direct offices, comprise a market share of up to 75% of India’s theatrical revenue. Our primary internal distribution network provides greater control, transparency and flexibility over core regions in which we distribute our films; and allows us to retain a higher portion of film revenues.

The film territories where we have direct offices, comprise a market share of up to 75% of India’s theatrical revenue.

Television Distribution

We believe that increasing television audiences in India creates opportunities for us to license our film content; and expand audience synergy for recognition of ‘brand ‘Eros’ and entertainment. We license Indian film content (usually a combination of new releases and existing films in our library) to satellite television broadcasters operating in India under agreements that generally allow them to telecast a film a number of times over a stated period in exchange for a specified license fee.

We have, directly or indirectly, licensed content to major Indian television channels such as Colors, Sony, the Star Network and Zee TV. In addition, we do syndication to DTH providers, cable operators and Doordarshan, the Government-owned terrestrial network.

Television pre-sales in India are an important factor in enhancing revenue predictability for our business and are part of our strategy to promote stable cash-flow generation.

Overseas Distribution

We distribute our films through the established, worldwide, multi-channel distribution network of our parent company, Eros International Plc. Outside India, we distribute our films theatrically through our offices in Dubai, Singapore, the United States, the United Kingdom, Australia and Fiji and through sub-distributors in other markets.

In addition to the core markets like the Middle – East, United States and United Kingdom which have a large South Asian diaspora there is a growing appeal for Indian films among non-Indian audiences.

The distribution network extends over 50 countries, including Germany, Poland, Russia, Romania, Indonesia, Malaysia, Taiwan, Japan, South Korea and China, to name a few. We release our Indian films across these geographies, which are subtitled or dubbed in local languages.

MONETISING LIBRARY

Our extensive film library provides us a reliable source of recurring cash flow after the theatrical release period for a film has ended. In addition, because our film library is large and diversified, we can effectively leverage it by licensing not just single films, but multiple films.

GROWING WITH AGILE STEPS

Our strategy to monetise our film catalogue and bundling it along with fresh film content for television, cable, DTH and other platforms has helped us to realise high-margin catalogue revenues consistently. In FY2017, our EBIT margin expanded to 26.1%, PAT margin expanded to 17.8%, mainly due to higher contribution from catalogue revenues.

We understand the need for customised, tailor-made marketing communications to draw audiences and increase viewership. Our passion and perseverance add muscle to our marketing efforts.

We create campaigns, based on specific research insights for each film, tailored to a particular market, utilising print, brand

tie-ups, music pre-releases, television, print and outdoor advertising and social media marketing on multiple platforms.

We use TV promotions to expand our marketing reach and content appeal. We also work with our filmstars to co-ordinate promotional appearances on popular television programming, timed to coincide with the marketing period for upcoming theatrical releases.

In an increasingly digital native world, digital promotion of films has become crucial to connect with a younger, social

media savvy audience. The consumption patterns of this demographic is overly dependent on the internet and social media platforms. They are discerning, opinionated and reject straightforward plugs. Therefore, the team creates innovative digital content around the theme of the film – which engages, entertains and also promotes the film. This could be video content, memes or just a provocative Twitter hashtag. A key component of this content is share-ability - apart from social media traction, this also creates media visibility.

In addition, the celebrities and key influencers help in reaching out widely to the prospective audiences and create a top of the mind recall and desire to watch the film. We also have alliances with Facebook and Twitter to optimise the reach of our films. Digital promotion has become crucial to the extent that 15-18% of a film's total marketing budget is now purely towards digital spends and content creation. This is a relatively new phenomenon – a trend has happened in the last three years. In the coming years, this trend can only spiral upwards

Corporate Social Responsibility

1. Brief outline of the Company's CSR policy	The Company's CSR vision is to make concerted efforts towards promotion of education amongst the underprivileged and women empowerment. Besides this, the Company may also undertake other CSR activities listed in Schedule VII of the Companies Act, 2013.												
2. Overview of projects or programs undertaken/ proposed to be undertaken	In accordance with the Company's CSR Policy and its vision, the Company participated in CSR activities with "Arpan" and "CARE INDIA Solutions for Sustainable Development", the registered NGOs, details of which are as follows: <ol style="list-style-type: none"> Arpan focus on Personal Safety Education Programme for dealing with child sexual abuse. It also focuses on creating awareness and skill enhancement of adults like parents, teachers and institutional caretakers who are primary stakeholders and caregivers in child's life. With the CSR contribution by the Company, Arpan educated 601 children, 441 parents, 39 teachers, and 9 support staff on personal safety in Thane district, Mumbai. The Company participated with "CARE INDIA Solutions for Sustainable Development", the registered NGO, in the year 2015 - 16 for Project "Improving Maternal Health through engaging family and community" to empower women from marginalized communities to improve maternal health by engaging spouse, family and community (majority Dalits) in selected districts of Uttar Pradesh (UP). However, the said amount was not utilized in the last financial year and accordingly not accounted by the Company in the last financial year for which necessary disclosures were made in the Annual Report. In the year 2016 - 2017, CARE INDIA made a CSR spend in Barabanki district of Uttar Pradesh covering the Health & Education sector mainly towards educating the family and community for improving maternal health. As the spend was made in this financial year, it has been taken into consideration for this financial year.

1	Personal Safety Education Programme in Schools	Education	Mumbai, Thane in Maharashtra	₹ 1,000,000	Direct expenditure on program. Minimal overheads (>10% of overall budget)	₹ 1,000,000	Implementing agency - ARPAN NGO Registered under Section 8 of the Indian Companies Act.
2	CSR Contribution for maternal and neo natal health project	Health	Block –Deva District – Barabanki, Uttar Pradesh	₹ 1,000,000	Direct expenditure on projects or programs: ₹ 925,760/- Overheads: ₹ 74,240/-	₹ 2,000,000	Implementing agency – CARE India Solutions for Sustainable Development NGO Registered under Section 8 of the Indian Companies Act.

8. Reasons for not spending the amount of two per cent of the average net profit of the last three financial years
- The Company was required to spend a sum of ₹ 4.27 crores in the financial year 2016-2017, being 2% of average net profit of last three years. However, the Company during the financial year 2016-17 has spent ₹ 20 lakhs towards its CSR expenses by way of contribution to NGO "Arpan" and NGO "CARE INDIA Solutions for Sustainable Development".
- The Company is in the process of identifying the right charitable institutes to be associated with and therefore, in the current financial year there was a short spent of ₹ 4.07 crores towards the CSR activities.

Section E: Principle-wise Performance

PRINCIPLE - 01

ETHICS, TRANSPARENCY AND ACCOUNTABILITY

1. Does the policy relating to ethics, bribery and corruption apply only the Company? Yes/No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/ Others?

At Eros, ethical practices underpin our corporate code of conduct. The Company is committed to maintain the highest standards of corporate governance and adhere

to the applicable legal requirements. To promote highest standards of professionalism, honesty, integrity and ethical behavior, the Company has various policies like Code of Business Conduct and Ethics, Whistle Blower policy, Vendor Code of Conduct, Policy on Anti-Bribery and Corruption in place.

The glimpses of our policies are as follows;

- **Code of Business Conduct and Ethics for Directors, Key Managerial Personnel & Senior Management Personnel:-**

The policy is intended to provide guidance and help in recognizing and dealing with ethical issues and to help foster a culture of honesty and accountability.

- **Employee Code of conduct:-**

The policy details the standards of personal and professional behaviour of employees and maintain a healthy work environment.

- **Whistle blower policy:-**

The policy enables the employees and stakeholders of the Company to report to the management about any instances of unethical behaviour.

- **Policy on anti-bribery and corruption:-**

The policy describes the zero tolerance on any acts of bribery, corruption etc. by any of the stakeholders during the dealings with the Company.

The Company's philosophy on Corporate Governance is built on a rich legacy of fair, transparent and effective governance. To ensure that the principle of ethics, transparency and accountability translates into consistent practice, the above policies along with the board committees serve as enablers for high standards of business conduct.

2. How many stakeholders' complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Eros has established structured mechanisms to address concerns of stakeholders and communicate their expectations which are dealt by the Audit Committee. During the reporting period, we have not received any complaints/ grievances from our stakeholders regarding unethical business practices.

PRINCIPLE - 02

PRODUCTS LIFE CYCLE SUSTAINABILITY

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and / or opportunities:

Management Discussion And Analysis

ECONOMIC OUTLOOK

As per the World Economic Outlook (WEO), April 2017, the Global GDP growth was around 3.1% in CY2016, while India was the fastest growing geography with a GDP growth of 6.8%. Even for CY2017, the GDP growth for India is forecasted at 7.2%, despite being trimmed by 0.4% because of the temporary negative consumption shock induced by cash shortages and payment disruptions due to demonetisation. The growth prospects are promising, with forecast signalling towards a rise of about 8% over the medium-term due to the implementation of key reforms like Goods and Services Tax (GST), reforms in the banking sector, growth in Foreign Direct Investments and appropriate fiscal and monetary policies.

INDIAN FILM INDUSTRY

For the CY2016, the Indian Film industry grew at the rate of 3%, largely due to the impact of demonetisation that affected the theatrical revenues and led to the postponement of several film releases to CY2017.

Overall, the industry is expected to stage a recovery in CY2017 onwards. Additional revenues from penetration of multiplexes and television, growth in overseas markets and digital and ancillary revenues are likely to drive growth. Overall, the film industry is projected to grow at a compounded average growth rate of 7.7% till CY2021 to be worth ₹ 206.6 billion.

Domestic Theatricals

Domestic theatricals is the main source of revenue with a 70% share in the total revenues of the Indian film industry. In 2016, the segment witnessed a decline over the previous year due to weak box office performance of Bollywood and Tamil movies, the top two contributors to the segment, due to the demonetisation initiative. Regional markets continued to grow with the increasing reach of Malayalam, Marathi, Punjabi and Gujarati films. However, demonetisation dampened the overall box office collections by reducing footfalls especially in single screen theatres and the overall number of movie releases. This segment is expected to grow at a CAGR of 5.6 per cent over the next five years. This is likely to be a combination of expansion in the exhibition sector – addition of multiplex screens and conversion of single screens into multiplex along with increase in average ticket prices (ATPs). While this may be the base case scenario, India remain a very under-screened market (6 screens per million population as compared to 23 in China, 61 in UK, 85 in France and 126 in the United States, KPMG-FICCI Report 2016) and a lot will depend on the overall screen build out and the quality of content that is released and the growth rates can be much higher.

Some of the notable trends in 2016 were:

Increasing success of content driven movies

Differentiated, strong, message-based quality content became the indispensable factor for the success of a movie in 2016, further highlighting the fact that audiences have become more discerning in content consumption. Marquee actors/directors continue to drive opening week collections, however, the long-term success of films at the box office has come to be defined by the quality of its content. Franchise films continue to work at the box office as was demonstrated by the success of 'Housefull 3'.

Increasing potential of the regional film industry

Over the past few years, regional movies have performed well at the box office, due to impressive content and the relative untapped nature of the regional markets. Regional movies have also achieved robust profitability due to greater control over production costs, with the average cost of producing a Marathi or Punjabi film at ₹ 40 million versus ₹ 200 million for

a small commercial Hindi film, but carry the revenue earning potential that is multiple times the production budget. This trend of the success of the regional industry continued in 2016 with it contributing around 50% to the overall domestic theatrical revenues. This trend is also supported by increasing demand for films in non-metro cities with distinct cultures, languages and content preferences provides a variety of opportunities to deliver localized and regional content.

While Tamil and Telugu film industry are the two largest regional markets. Telugu films which were mass commercial films such as 'Janatha Garage' ruled the box office becoming the third highest grossing Telugu film ever. Year 2016 was a landmark year for the Malayalam film industry. The total domestic box office collection from top 10 movies increased by around 25% in 2016 as compared to 2015. Record performances also came from Marathi film 'Sairat' and Punjabi film 'Chaar Sahibzaade 2'.

Multiplexes driving growth in exhibition

The multiplexes have been driving growth of the sector over the last few years. By the end of 2016, there were around 2,500 multiplex screens and around 6,000 single screens in India but by industry estimates around 45% of the industry revenues are accounted by the multiplexes while for Hindi films this number is as high as 80%. Currently, the Indian multiplex industry has four major players which account for approximately 75% of multiplex screens.

Top 4 multiplexes (December 2016)	Number of screens
PVR Cinemas	562
Inox Leisure	446
Carnival Cinemas	365
Cinepolis India	292

Source: KPMG India - FICCI Report

After the wave of consolidation, the focus has now shifted to adding screens organically. In 2016, the multiplexes together added approximately 200 screens across India. Industry discussions indicate that the industry is likely to continue to grow at a similar pace – adding 150-200 screens per year. However,

Management Discussion and Analysis (Contd.)

from a consumer demand point of view, there is a case for a much higher growth rate and if regulatory hurdles are eased at a state and local level, the industry can grow much faster. The number of multiplexes witnessed an increase across smaller towns, with major operators entering Tier-II cities leading to increased footfalls and revenue realisations. To further expand their footprint in Tier-II, Tier-III cities, some Indian multiplex majors are devising low capex strategy, which will involve building entertainment zones partnering state governments and real estate developers.

Overseas theatricals

Overseas theatricals segment grew by 14% from ₹ 9.5 billion in 2015 to ₹ 10.9 billion in 2016. This growth can be attributed to strong performance of South Indian movies in the overseas market. Their contribution has increased by around 10% over the previous year to reach 62% of the overseas theatricals in 2016. Over the next five years, this segment is expected to grow at a CAGR of ~7% on the back of increase in the number of movies (both Hindi and regional language) travelling to overseas markets and opening of newer territories for Indian films.

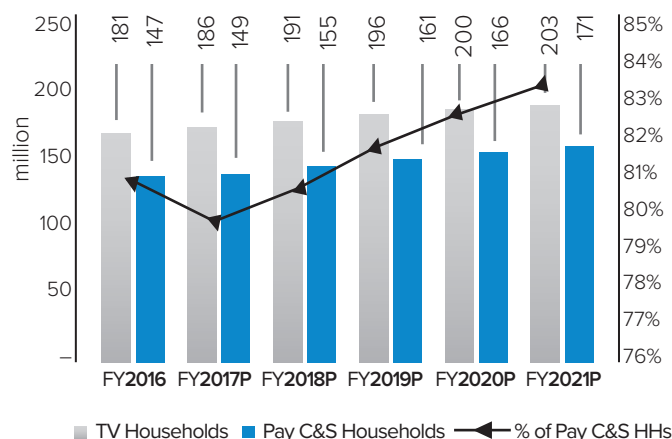

For Bollywood movies, U.S. - 30%, U.K. - 20% and Middle East -25% together contribute to 75% of total overseas revenues. Other emerging markets include Australia, New Zealand, South East Asia, China and select films get released in over 50 countries around the world and are increasingly attracting crossover audiences. The dispersion of this revenues changes significantly across languages based on the regional concentration of the Indian diaspora around the world. China is a large emerging opportunity and some Indian films have done extremely well in China.

Cable and Satellite

The number of TV households in India increased to 181 million in 2016, resulting in a TV penetration of 63%. The industry witnessed net addition of 9 million Cable and Satellite (C&S) subscribers in 2016, ending with a C&S base of 169 million. The net additions were short by about a million due to slowdown in acquisitions owing to demonetisation. The short-term blip

of demonetisation is not likely to affect the long-term macro-economic indicators, with the TV households estimated to reach 203 million by 2021, implying a total TV penetration of 67%.

Broadcast Audience Research Council India (BARC) – Gaining acceptance

2016 was the first full year in which BARC (Urban and Rural) ("U+R") data was available across the entire 52 weeks. In January 2016, BARC introduced the metric of '000 Impressions as a measurement tool for viewership, with the terminology decided keeping in mind the long-term strategy of BARC moving into digital measurement. This new measurement samples a much wider audience and as a result has brought the rural audience in greater focus.

Growing rural viewership

A year-on-year (Y-o-Y) comparison shows a rise in TV impressions and average time spent in rural India by 30% and 26% respectively. Film content was seen as a strongly appealing to the rural TV audience. Consequently, 4 new FTA movie channels were launched by the major broadcasters during the year Viacom's 'Rishtey Cineplex', Zee's 'Anmol Cinema', Star's 'Utsav Movies' and Sony's 'Wah'. Cable & Satellite (C&S) rights contributed ~11% with the overall industry's revenue at ₹ 15.9 billion in 2016.

Cable and Satellite - Bollywood Films

C&S revenues of Bollywood films registered a growth in 2016 as compared to the previous year. Movies with an A list star cast or strong box office performance and strong content continue to drive growth. The satellite rights of movies for the top films were sold for ₹ 500-700 million. Rights of category A and category B movies were sold in a range of ₹ 250-400

FOR BOLLYWOOD MOVIES, THE U.S. (30%), THE U.K. (20%) AND THE MIDDLE EAST (25%) TOGETHER CONTRIBUTE 75% OF TOTAL OVERSEAS REVENUES.

million and ₹ 100-200 million respectively depending on the movie's target market.

Cable and Satellite - Regional Films

Regional broadcasters have become discerning with respect to the movies purchased with the price paid for acquiring such rights often linking the prices paid for the satellite rights with the box office performances. However, satellite rights for Marathi and Bengali films have shown firm trends.

Going forward the contribution from C&S is expected to grow. Industry discussions indicate that while the Hindi market is growing, the C&S market across regional languages is expected at a CAGR of 5.7%.

Music

The Indian music market was at ₹ 12.2 billion in 2016 and is expected to more than double its market size to ₹ 25.4 billion by 2021. Sale of music rights continued to generate robust revenues in 2016, able to recover on an average ~5% of the production cost of a movie. Music rights of movies from renowned production house/directors/star cast are sold much before the release of the movie. The price for category A movies varies between ₹ 90-150 million and for category B movies, it varies between ₹ 40-60 million. Music rights fetched a higher amount in 2016 due to an increase in syndication and digital consumption of music along with intensifying competition in industry. The major music labels include T Series, Zee Music, Sony Music and Eros Music. Major players have tied up with various OTT players such as Wynk, Hungama, Eros Now and Saavn for music licensing.

Bollywood, the most popular genre in 2018

MARKETING AND DISTRIBUTION

With a proliferation of content across different media, release of nearly 20 movies every week and release clashes at the box office, it has become increasingly important for a movie's success to have a clutter breaking marketing campaign. Timing of the marketing campaign has also become incredibly

important as movies aim to build momentum in the short span of time leading up to the release of the movie.

This has led to an increase in the marketing budget of movies over the years. Currently, for a 'High and Medium Budget Hindi films, it varies from ₹ 100-250 million depending on the size of movie release. The television still takes the maximum share of 40%, print around 8-10% and digital comprising 10-15%. For a youth oriented movie, marketing budget allocation to digital platforms can go up to 20%. Some of the key trends notable in 2016 are as follows.

Some of the key trends in CY 2016 were as follows: Growth in movie marketing on social media and digital platforms

Over the years, movie promotions have evolved from posters, hoardings and print ads to teasers, trailers, promotional tours, star interviews, music launch and reality shows. Of late, movie marketers have focused more on digital platforms due to the rapidly increasing internet/social media base in India. Such targeted communication helps in creating strong word of mouth and converting interest into footfalls. Most actors use social media (Facebook, Instagram & Twitter) to interact with their fan base and promote their films.

Increasing focus on cost effective distribution strategy

Organised distributors such as Eros conduct a detailed analysis of the release potential of the film to manage the release costs while maximum earning potential. Such decisions are based on the content of the movie and size and location of the movie's target market. Therefore, the screens in which the film releases can vary significantly. For example, 'Housefull 3' released in 3,600 screens across the country while an exciting niche film 'Nil Battey Sannata' released in about 300 screens.

Increasing use of analytics

Analytics has been used extensively by the industry to evolve their business models and address various challenges emerging in competitive markets. It enables customized solutions to assess the business impact and provide feedback on areas of improvement for business decision-making.

During the marketing phase, a movie's trailer and music create the maximum impact before release, thus it becomes increasingly important for movie marketers to analyze the performance of promos/ songs/ theatrical trailer in different markets and demographics. To achieve this, various analytical tools are being used to gauge the effectiveness of marketing efforts and accordingly achieve maximum Return on Investment. These tools help in estimating first day box office collections and provide media and creative strategy recommendations to increase to same. Some tools also help in movie release decisions in different markets based on genre/actor/director's popularity, etc.

NUMBER OF INTERNET-ENABLED MOBILE PHONES EXCEEDED 300 MILLION IN 2016 AND IS EXPECTED TO REACH 700 MILLION IN 2021.

Digital rights driving Ancillary Revenues

Ancillary revenue streams witnessed a growth of 51% from ₹ 10.2 billion in 2015 to ₹ 15.5 billion in 2016 and became the second largest contributor to the overall industry's revenue. Major proportion of this growth came on the back of steep increase in the digital rights prices of movies due to heightened competition in OTT landscape. This surge in acquisition cost can be attributed to an increase in the demand for library creation by existing players and new entrants like Amazon Prime and Netflix. In 2016, digital rights attributed to up to 30-35% of the overall rights value including C&S and in some cases, equal to the C&S deals. In cinema advertising and movie's music rights revenue streams continued to grow at a steady pace. This segment is expected to grow at the fastest pace (CAGR ~20%) over the next five years and contribute around 19% to the industry's total revenue by the end of year 2021.

Adoption of high speed 4G networks

The digital growth can be attributed to rise in demand arising from changing consumption patterns and an improvement in the quality of telecom infrastructure. In the years to come, digital viewership promises to be the flag-bearer of growth in Media and Entertainment industry in India, in line with the global trends in this direction.

With the wide launch of high-speed 4G services by operators across the country. Rising internet and broadband penetration, declining data charges, coupled with the proliferation of internet enabled mobile phones, led to data consumption levels increase manifold. This was driven by offers by the new entrant, Reliance Jio; which were quickly followed by major competitors Idea, Vodafone and Airtel. Digital has also positively impacted the relatively smaller sub-segments, such as gaming and music – which registered impressive growth too.

Increased data consumption – Growing addressable market for Eros Now

As per Telecom Regulatory Authority of India (TRAI) there are over 1.2 billion wireless subscribers in India at the end of December 2016. The number of wireless internet users in India are likely to cross 969 million by 2021. The number of internet-enabled mobile phones exceeded 300 million in 2016 and

is expected to reach 700 million in 2021. It is expected that over the next couple of years, 3G and 4G subscribers would constitute over 80% of the wireless internet subscribers base. Initiatives such as broadband rollout and public Wi-Fi as part of the government's Digital India campaign and the promotion of 4G data packs by leading telecoms will help boost the quality of digital infrastructure in India.

Growing interest in OTT landscape

The year saw the entry of global OTT video majors, Netflix and Amazon Prime Video in India, as well as launch of major broadcast network backed platforms like VOOT (Viacom 18) and OZee (Zee TV). Other platforms like Hotstar (Star TV India) and Sony Liv (Sony Pictures Networks) consolidated their offerings by launching premium services and a dedicated kids channel, respectively. Telecom platforms are also joining in the OTT game with syndicated content offerings across applications like Jio Apps, Airtel Wynk etc. Eros Now, Eros International Plc. OTT offering is one of the early movers in space and enjoys a strong competitive position.

COMPANY OVERVIEW

Eros International Media Limited (Eros International) is a leading global Company in the Indian filmed Entertainment Industry which co-produces, acquires and distributes Indian language films in multiple formats worldwide. Our success is built on the relationships we have cultivated over the past 30 years with leading talent, production companies, exhibitors and other key participants in our industry. Leveraging these relationships, we have aggregated rights to over 2,000 films in our library, including recent and classic titles that span different genres, budgets and languages, and we have distributed a portfolio of over 175+ new films over the last three completed fiscal years.

The applicable GST rate for transfer of copyrights will be @ 12%.

RISK MANAGEMENT

The Company has a robust mechanism of reviewing internal and external risks on a regular basis. Below are some of the critical internal and external risks, which may impact the Company:

Internal risks

There are substantial financial risks relating to film production, completion and release. Actual film costs may exceed their budgets and production delays, failure to complete projects or cost overruns could result in the Company not recovering its costs.

The Company runs the risk of producing films not as successful as anticipated and this could impact its business adversely.

If the Company fails to achieve or maintain an effective system of internal control over financial reporting, its ability to accurately and timely report the financial results or prevent fraud may be adversely affected.

Eros' accounting practices and management judgments may accentuate fluctuations in its annual and quarterly operating results; and may not be comparable to other film entertainment companies.

Litigation may be necessary to enforce the Company's intellectual property rights or to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Regardless of the validity or the success of the assertion of any claims, Eros could incur significant costs and diversion of resources in enforcing its intellectual property rights or in defending against such claims, which could have an adverse effect on its business and results of operations. Its services and products could infringe upon the intellectual property rights of third parties.

The Company may be unable to adequately protect or continue to use our intellectual property. Failure to protect such intellectual property may negatively impact our business.

Eros' financial condition and results of operations fluctuate from period to period due to film release schedules and other factors and may not be indicative of results for future periods.

External risks

The Company faces increasing competition with other films for movie screens, and its inability to obtain sufficient distribution of its films could have a material adverse effect on the business.

Increasing competition from other forms of entertainment could have an adverse effect on the business

Weak economic growth, rising unemployment and inflation can weaken discretionary consumer spending for the entertainment that the Company offers.

Piracy of content, including digital and internet piracy, may adversely impact the Company's revenues and business.

Some viewers or civil society organisations may find Eros' film content objectionable.

Relationships form the crux of the Company's business with theatre and multiplex operators and television operators, telecommunication companies, retailers and other industry participants. Any disputes with multiplex operators in India or elsewhere could delay film releases and disrupt Eros' marketing schedule.

**BASIC EPS FOR THE YEAR ENDED
31 MARCH 2017 WAS ₹ 27.49 PER
SHARE COMPARED TO ₹ 25.61 A
YEAR AGO, UP BY 7.3%.**

HUMAN RESOURCE

Eros values the contributions of its employees and encourages employees to recognise new opportunities and create value to perform better. It has built a work culture that attracts, motivates and retains the best industry talent through a combination of fixed remuneration, bonuses and employee stock options. Eros is an equal opportunity employer where all employees are treated fairly without any discrimination on the grounds of gender, marital status, race, color, nationality, ethnic or national origin, religion, disability or sexual orientation. The Company follows an effective recruitment policy based on job criteria and personal aptitude and competence of the applicants. It also applies best practices in the employment of disabled people and re-trains and retains staff who become disabled during their employment.

INTERNAL CONTROL SYSTEM

Eros has established a robust internal control system in its various business processes, commensurate with the size and nature of its business. The Company has implemented an integrated ERP system (SAP); and is in process of rolling it out to its subsidiary companies.

The Internal Auditors conduct risk-based auditing according to the annual audit plan approved by the Audit Committee.

The Company's internal control system records the transactions of its operations in all material respects and provides protection against significant misuse or loss of Company assets.

CAUTIONARY STATEMENTS

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward-looking statements' within the meaning of applicable securities, laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could influence the Company's operations include economic developments within the country, demand and supply conditions in the industry, input prices, changes in Government regulations, tax laws and other factors such as litigation and industrial relations.

Corporate Governance Report

THE COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

The Company considers fair and transparent corporate governance as one of its most core management tenets. Corporate Governance may be defined as a set of systems, policies, processes and principles which ensures that a company is governed in the best interest of all the stakeholders. It is the system by which companies are directed, administered, controlled and managed. Good governance is about promoting corporate fairness, transparency and accountability.

We strongly believe in the practice of conducting our business activities in a fair, direct and completely transparent manner that will not only benefit the Company but more importantly will ensure the highest level of accountability and trust for all our stakeholders such as shareholders, our employees and our partners. The timely disclosures, transparent accounting policies and a strong and independent Board go a long way in maintaining good corporate governance, preserving shareholders' trust and maximizing long-term corporate value.

We, at Eros International, continuously strive at improving and adhering to the good governance practice. The Company has

adopted best practices mandated in SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015 (hereinafter referred to as the "SEBI Listing Regulations").

Independent Auditor's Report

To the Members of Eros International Media Limited

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of Eros International Media Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these standalone financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these standalone financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2017, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matter

9. The Company had prepared separate sets of statutory financial statements for the year ended 31 March 2016 and 31 March 2015 in accordance with Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) on which we issued auditor's reports to the shareholders of the Company dated 26 May 2016 and 29 May 2015 respectively. These financial statements have been adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, which have also been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.

11. Further to our comments in Annexure B, as required by Section 143(3) of the Act, we report that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under Section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2017 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 26 May 2017 as per Annexure B expressed an unqualified opinion;
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in Note 40 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;
 - iv. the Company, as detailed in Note 47 to the standalone financial statements, has made requisite disclosures in these standalone financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016. Based on the audit procedures performed and taking into consideration the information and explanations given to us, in our opinion, these are in accordance with the books of account maintained by the Company.

Annexure A

to the Independent Auditor's Report of even date to the members of Eros International Media Limited, on the standalone financial statements for the year ended 31 March 2017

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The fixed assets have been physically verified by the management during the year by engaging the outside expert and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has granted unsecured loans to companies and firms covered in the register maintained under Section 189 of the Act,
- (a) in our opinion the terms and conditions of the grant of such loans are prima facie, not prejudicial to the Company's interests.
- (b) the schedule of repayment of principal and interest has been stipulated wherein the principal and interest amounts are repayable on demand. Since the repayment of such loans has not been demanded, in our opinion, the repayment of the principal and interest amount is regular.
- (c) there is no overdue amount in respect of loans granted to such companies and firms.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products/ services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, value added tax, cess and other material statutory dues, as applicable, have not been regularly deposited to the appropriate authorities and there have been significant delays in a large number of cases. Undisputed amounts payable in respect thereof, which were outstanding at the year-end for a period of more than six months from the date they became payable are as follows:

Annexure B

to the Independent Auditor's Report of even date to the members of Eros International Media Limited, on the standalone financial statements for the year ended 31 March 2017

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the standalone financial statements of Eros International Media Limited ("the Company") as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI).

Summary of Significant Accounting Policies

Corporate Information

Eros International Media Limited (the 'Company') was incorporated in India, under the Companies Act, 1956. The Company is a global player within the Indian media and entertainment industry and is primarily engaged in the business of film production, exploitation and distribution. It operates on a vertically integrated studio model controlling content as well as distribution and exploitation across multiple formats globally, including cinema, digital, home entertainment and television syndication. Its shares are listed on leading stock exchanges in India (BSE Scrip Code: 533261; NSE Scrip Code: EROSMEDIA).

These standalone financial statements were authorised for issue in accordance with a resolution of the Directors on 26 May 2017.

Basis of preparation

For all periods, up to and including the year ended 31 March 2016, the Company prepared its financial statements in accordance with accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

These financial statements for the year ended 31 March 2017 have been prepared in accordance with Indian Accounting Standards ("Ind-AS") consequent to the notification of The Companies (Indian Accounting Standards) Rules, 2015 (the Rules) issued by the MCA. These are the first Ind-AS financial statements of the Company, wherein the Company has restated its Balance Sheet as at 1 April 2015 and financial statements for the year ended and as at 31 March 2016 also as per Ind-AS.

The standalone financial statements have been prepared on a historical cost basis, except for the following:

- Employee Stock Option Compensation measured at fair value (refer accounting policy on ESOP).
- Accounting of Business Combinations at fair value

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. The Company considers 12 months to be its normal operating cycle.

1. Significant accounting policies

a. Revenue recognition

Revenue is recognized, net of sales related taxes, when persuasive evidence of an arrangement exists, the fees are fixed or determinable, the product is delivered or services have been rendered and collectability is reasonably assured. The Company considers the terms of each arrangement to determine the appropriate accounting treatment.

The following additional criteria apply in respect of various revenue streams within filmed entertainment:

Theatrical - Contracted minimum guarantees are recognized on the theatrical release date. The Company's share of box office receipts in excess of the minimum guarantee is recognized at the point they are notified to the Company.

Television - License fees received in advance which do not meet the revenue recognition criteria are included in deferred income until the above criteria is met.

Other - DVD, CD and video distribution revenue is recognized on the date the product is delivered or if licensed in line with the revenue recognition criteria. Provision is made for physical returns where applicable. Digital and ancillary media revenues are recognized at the earlier of when the content is accessed or declared. Visual effects, production and other fees for services rendered by the Company and overhead recharges are recognized in the period in which they are earned and in certain cases, the stage of production is used to determine the proportion recognized in the period.

Other income

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

b. Property, plant and equipment and depreciation

Property, Plant and Equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes etc. up to the date the asset is ready for its intended use. Depreciation is provided under written down value method at the rates and in the manner prescribed under Schedule II to the Companies Act, 2013.

c. Intangible assets

Intangible assets acquired by the Company are stated at cost less accumulated amortisation less impairment loss, if any, (film production cost and content advances are transferred to film and content rights at the point at which content is first exploited).

Investments in films and associated rights, including acquired rights and distribution advances in respect of completed films, are stated at cost less amortisation less provision for impairment. Costs include production costs, overhead and

Summary of Significant Accounting Policies

capitalized interest costs net of any amounts received from third party investors. A charge is made to write down the cost of completed rights over the estimated useful lives, writing off more in year one which recognizes initial income flows and then the balance over a period of up to nine years, except where the asset is not yet available for exploitation. The average life of the assets is the lesser of 10 years or the remaining life of the content rights. The amortisation charge is recognized in the Statement of profit and loss within Film right costs including amortisation costs. The determination of useful life is based upon Management's judgment and includes assumptions on the timing and future estimated revenues to be generated by these assets.

Intangible assets comprising film scripts and related costs are stated at cost less amortisation less provision for impairment. The script costs are amortized over a period of 3 years on a straight-line basis and the amortisation charge is recognized in the Statement of profit and loss within Film right costs including amortisation costs. The determination of useful life is based upon Management's estimate of the period over which the Company explores the possibility of making films using the script.

Other intangible assets, which comprise internally generated and acquired software used within the Entity's digital, home entertainment and internal accounting activities, are stated at cost less amortisation less provision for impairment. A charge is made to write down the cost of completed rights over the estimated useful lives except where the asset is not yet available for exploitation. The average life of the assets is the lesser of 3 years or the remaining life of the asset. The amortisation charge is recognized in the Statement of profit and loss.

d. Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at the cash generating unit level. All individual assets or cash generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use'.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Film and content rights are stated at the lower of unamortized cost and estimated recoverable amounts. In accordance with Ind AS 36 Impairment of Assets, film content costs are assessed for indication of impairment on a library basis as the nature of the Company's business, the contracts it has in place and the markets it operates in do not yet make an ongoing individual film evaluation feasible with reasonable certainty. Impairment losses on content advances are recognized when film production does not seem viable and refund of the advance is not probable.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist.

e. Borrowing costs

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost with any difference between the proceeds (net of transaction costs) and the redemption value recognised in the Statement of profit and loss within finance costs over the period of the borrowings using the effective interest method. Finance costs in respect of film productions and other assets which take a substantial period of time to get ready for use or for exploitation are capitalized as part of the assets.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date.

f. Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on risk exposure arising from financial assets like debt instruments measured at amortised cost e.g., trade receivables and deposits.

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes

Summary of Significant Accounting Policies

in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of profit and loss. This amount is reflected under the head 'other expenses' in the Statement of profit and loss.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

g. Inventories

Inventories primarily comprise of music CDs and DVDs, and are valued at the lower of cost and net realizable value. Cost in respect of goods for resale is defined as purchase price, including appropriate labour costs and other overhead costs. Cost in respect of raw materials is purchase price.

Purchase price is assigned using a weighted average basis. Net realizable value is defined as anticipated selling price or anticipated revenue less cost to completion.

h. Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is more likely than not that an outflow of resources will be required to settle the obligations and can be reliably measured. Provisions are measured at Management's best estimate of the expenditure required to settle the obligations at the statement of financial position date and are discounted to present value where the effect is material.

i. Retirement and other employee benefits

Defined contribution plan

Provident fund & National Pension scheme: The Company's contributions paid or payable during the year to the provident fund, employee's state insurance corporation and National pension scheme are recognized in the Statement of profit and loss. This fund is administered by the respective Government authorities, and the Company has no further obligation beyond making its contribution, which is expensed in the year to which it pertains.

Defined benefit plan

Gratuity: The Company's liability towards gratuity is determined using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The cost for past services is recognized on a straight line basis over the average period until the amended benefits become vested. Re-measurement gains and losses are recognized immediately in the Other Comprehensive Income as income or expense and are not reclassified to profit or loss in subsequent periods. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds where the currency and terms of the Government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Compensated absences: Accumulated compensated absences are expected to be availed or encashed within 12 months from the end of the year and are treated as short-term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Summary of Significant Accounting Policies

Employee stock option compensation

In accordance with Ind AS 102 Share Based Payments, the fair value of shares or options granted is recognized as personnel costs with a corresponding increase in equity. The fair value is measured at the grant date and spread over the period during which the recipient becomes unconditionally entitled to payment unless forfeited or surrendered.

The fair value of share options granted is measured using the Black Scholes model, each taking into account the terms and conditions upon which the grants are made. At each Balance Sheet date, the Company revises its estimate of the number of equity instruments expected to vest as a result of non-market based vesting conditions. The amount recognized as an expense is adjusted to reflect the revised estimate of the number of equity instruments that are expected to become exercisable, with a corresponding adjustment to equity reserves. The Company's share option plan does not feature any cash settlement option.

Upon exercise of share options, the proceeds received net of any directly attributable transaction costs up to the nominal value of the shares are allocated to share capital with any excess being recorded as share premium.

j. Leases

A lease is classified at the inception date as a finance lease or an operating lease. Leases in which significantly all the risks and rewards incidental to ownership are transferred to the lessee are classified as finance leases. All other leases are operating Leases. Payments under operating leases are charged to the Statement of profit and loss on a straight line basis over the period of the lease.

k. Foreign Currency

Transactions in foreign currencies are translated at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities in foreign currencies are translated at the prevailing rates of exchange at the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were initially recorded are recognized in the Statement of profit and loss in the period in which they arise. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at rates prevailing at the date when the fair value

was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

The Company's functional currency and the presentation currency is same i.e. Indian Rupee (₹).

I. Financial instrument

Non-derivative financial instruments

Financial assets and financial liabilities are recognized when the Company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets or liabilities (other than financial assets and liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized immediately in Statement of profit and loss. Financial assets and financial liabilities are offset against each other and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

A financial instrument is measured at fair value through profit or loss if:

- ⦿ it has been acquired principally for the purpose of selling/repurchasing it in the near term;
- ⦿ on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent pattern of short term profit taking; or
- ⦿ it is a derivative that is not designated in a hedging relationship.

The fair value of financial instruments denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore for financial instruments that are classified as fair value through profit and loss, the exchange component is recognized in Statement of profit and loss.

Summary of Significant Accounting Policies

Financial Assets

Financial assets are divided into the following categories:

- ⦿ financial assets carried at amortised cost
- ⦿ financial assets at fair value through other comprehensive income
- ⦿ financial assets at fair value through profit and loss;

Financial assets are assigned to the different categories by management on initial recognition, depending on the nature and purpose of the financial assets. The designation of financial assets is re-evaluated at every reporting date at which a choice of classification or accounting treatment is available. Financial Assets like Investments in Subsidiaries are measured at Cost as allowed by Ind-AS 27 – Separate Financial Statements and hence are not fair valued.

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These are non-derivative financial assets that are not quoted in an active market. Loans and receivables (including trade and other receivables, bank and cash balances) are measured subsequent to initial recognition at amortized cost using the effective interest method, less provision for impairment. Any change in their value through impairment or reversal of impairment is recognized in the Statement of profit and loss.

In accordance with Ind AS 109: Financial Instruments, the Company recognizes impairment loss allowance on trade receivables and content advances based on historically observed default rates. Impairment loss allowance recognized during the year is charged to Statement of profit and loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are non-derivative financial assets held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. It includes non-derivative financial assets that are either designated as such or do not qualify for inclusion in any of the other categories of financial assets. Gains and losses arising from investments classified under this category is recognized in the Statement of profit and loss when they are sold or when the investment is impaired.

In the case of impairment, any loss previously recognized in other comprehensive income is transferred to the Statement of profit and loss. Impairment losses recognized in the Statement of profit and loss on equity instruments are not reversed through the Statement of profit and loss. Impairment losses recognized previously on debt securities are reversed through the Statement of profit and loss when the increase can be related objectively to an event occurring after the impairment loss was recognized in the Statement of profit and loss.

When the Company considers that fair value of financial assets can be reliably measured, the fair values of financial instruments that are not traded in an active market are determined by using valuation techniques. The Company applies its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at each balance sheet date. Equity instruments measured at fair value through profit or loss that do not have a quoted price in an active market and whose fair value cannot be reliably measured are measured at cost less impairment at the end of each reporting period.

An assessment for impairment is undertaken at least at each balance sheet date.

A financial asset is derecognized only where the contractual rights to the cash flows from the asset expire or the financial asset is transferred and that transfer qualifies for derecognition. A financial asset is transferred if the contractual rights to receive the cash flows of the asset have been transferred or the Company retains the contractual rights to receive the cash flows of the asset but assumes a contractual obligation to pay the cash flows to one or more recipients. A financial asset that is transferred qualifies for derecognition if the Company transfers substantially all the risks and rewards of ownership of the asset, or if the Company neither retains nor transfers substantially all the risks and rewards of ownership but does transfer control of that asset.

Financial liabilities

Financial liabilities are classified as either 'financial liabilities at fair value through profit or loss' or 'other financial

Summary of Significant Accounting Policies

liabilities'. Financial liabilities are subsequently measured at amortized cost using the effective interest method or at fair value through profit or loss.

Financial liabilities are classified as at fair value through profit or loss when the financial liability is held for trading such as a derivative, except for a designated and effective hedging instrument, or if upon initial recognition it is thus designated to eliminate or significantly reduce measurement or recognition inconsistency or it forms part of a contract containing one or more embedded derivatives and the contract is designated as fair value through profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value. Any gains or losses arising of held for trading financial liabilities are recognized in Statement of profit and loss. Such gains or losses incorporate any interest paid and are included in the "other gains and losses" line item.

Other financial liabilities (including borrowing and trade and other payables) are subsequently measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or a shorter period, to the net carrying amount on initial recognition.

A financial liability is derecognized only when the obligation is extinguished, that is, when the obligation is discharged or cancelled or expires. Changes in liabilities' fair value that are reported in profit or loss are included in the Statement of profit and loss within finance costs or finance income.

m. Taxes

Taxation on profit and loss comprises current tax and deferred tax. Tax is recognized in the Statement of profit and loss except to the extent that it relates to items recognized directly in equity or other comprehensive income in which case tax impact is also recognized in equity or other comprehensive income.

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted at the balance sheet date along with any adjustment relating to tax payable in previous years.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

Minimum alternate tax (MAT) paid in a year is charged to the Statement of profit and loss as current tax. MAT credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, which is the period for which MAT credit is allowed to be carried forward. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

n. Earnings per share

Basic earnings per share is computed using the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is computed by considering the impact of the potential issuance of ordinary shares, on the weighted average number of shares outstanding during the period except where the results would be antidilutive.

o. Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short term highly liquid investments which are readily convertible into known amounts of cash and are subject to insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

Deposits held with banks as security for overdraft facilities are included in restricted deposits held with bank.

p. Segment reporting

Ind-AS 108 Operating Segments ("Ind-AS 108") requires operating segments to be identified on the same basis as is used internally for the review of performance and allocation of resources by the Chief Operating Decision

Summary of Significant Accounting Policies

Maker. The revenues of films are earned over various formats; all such formats are functional activities of filmed entertainment and these activities take place on an integrated basis. The management team reviews the financial information on an integrated basis for the Company as a whole, with respective heads of business for each region and in accordance with Ind-AS 108, the Company provides a geographical split as it considers that all activities fall within one segment of business which is filmed entertainment. The management team also monitors performance separately for individual films or for at least 12 months after the theatrical release.

The Company has identified three geographic markets: India, United Arab Emirates and Rest of the world.

q. Standards Issued but not yet Effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are applicable to the Company from 1 April, 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from

the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

The company is evaluating the requirements of the amendment and their effect on the financial statements.

2. Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions, as described below, that affect the reported amounts and the disclosures. The Company based its assumptions and estimates on parameters available when the financial statements were prepared and reviewed at each balance sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

a. Intangible Assets

The Company is required to identify and assess the useful life of intangible assets and determine their income generating life. Judgment is required in determining this and then providing an amortisation rate to match this life as well as considering the recoverability or conversion of advances made in respect of securing film content or the services of talent associated with film production.

Accounting for the film content requires management's judgment as it relates to total revenues to be received and costs to be incurred throughout the life of each film or its license period, whichever is the shorter. These judgments are used to determine the amortisation of capitalized film content costs. The Company uses a stepped method of amortisation on first release film content writing off more in year one which recognizes initial income flows and then the balance over a period of up to nine years. In the case of film content that is acquired by the Company after its initial exploitation, commonly referred to as Library, amortisation is spread evenly over the lesser of 10 years or the license period. Management's policy is based upon factors such as historical performance of similar films, the star power of the lead actors and actresses and others. Management regularly reviews, and revises when necessary, its estimates, which may result in a change in the rate of amortisation and/or a write down of the asset to the recoverable amount.

The Company tests annually whether intangible assets have suffered any impairment, in accordance with the accounting policy. These calculations require judgements

Notes

and estimates to be made, and in the event of an unforeseen event these judgments and assumptions would need to be revised and the value of the intangible assets could be affected. There may be instances where the useful life of an asset is shortened to reflect the uncertainty of its estimated income generating life.

b. Employee benefit plans

The cost of the employment benefit plans and their present value are determined using actuarial valuations which involves making various assumptions that may differ from actual developments in the future.

For further details refer to Note 41a

c. Fair value measurement of ESOP Liability

The fair value of ESOP Liability is determined using valuation methods which involves making various assumptions that may differ from actual developments in the future. For further details refer Note 41d

Total	A 31,213	31,436	16,118

Notes:

- During the year ended 31 March 2015, the Company received a show cause notice from the Commissioner of Service Tax to show cause why an amount aggregating to ₹ 15,675 lakhs for the period 1 April 2009 to 31 March 2014 should not be levied on and paid by the Company for service tax arising on temporary transfer of copyright services and other matters.

In connection with the aforementioned matters, on 19 May 2015, the Company received an Order-in-original issued by the Principal Commissioner, Service Tax, wherein the department confirmed the demand of ₹ 15,675 lakhs along with interest and penalty amounting to ₹ 15,675 lakhs resulting into a total demand of ₹ 31,350 lakhs.

On 3 September 2015, the Company filed an appeal against the said order before the authorities. The Company has paid ₹ 1,000 Lakhs under protest. Considering the facts and nature of levies and the ad-interim protection for the period 1 July 2010 to 30 June 2012 granted by the Honorable High Court of Mumbai, the Company expects that the final outcome of this matter will be favourable.
- Accordingly, based on the assessment made after taking appropriate legal advice, no additional liability has been recorded in the financial statements.
- Company has received notice for reversal of CENVAT credit for the period 2013-14 to 2015-16 ₹ 187 Lakhs and for the period Jan 16 to March 2017 ₹ 204 Lakhs. Further Company also received notice for Non levy of Service tax on Import of Services for the period 2013-14 to 2015-16 for ₹ 70 Lakhs.
- In addition, the Company is liable to pay service tax on use on temporary transfer of copyright in the period 1 July 2010 to 30 June 2012. The Company filed a writ petition in Mumbai High Court challenging the constitutionality and the legality of this entry and received ad-interim protection and accordingly, no amounts were provided for by the Company for the period 1 April 2011 to 30 June 2012.
- It is not practicable for the Company to estimate the timing of cash outflows, if any, in respect of the above, pending resolution of the respective proceedings.

Notes

to the standalone financial statements and other explanatory information

- 5 From time to time, the 'Company' is involved in legal proceedings arising in the ordinary course of its business, typically intellectual property litigation and infringement claims related to the Company's feature films and other commercial activities, which could cause the Company to incur expenses or prevent the Company from releasing a film. While the resolution of these matters cannot be predicted with certainty, the Company does not believe, based on current knowledge or information available, that any existing legal proceedings or claims are likely to have a material and adverse effect on its financial position, results of operations or cash flows.
- 6 The Company does not expect any reimbursements in respect of the above contingent liabilities.

45 Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the balance sheet are grouped into three Levels of a fair value hierarchy. The three Levels are defined based in the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

46 Financial instruments and Risk management

The Company is exposed to various risks in relation to financial instruments. The Company's financial assets and liabilities by category are summarised in note 44. The main types of risks are market risk, credit risk and liquidity risk.

The Company's risk management is coordinated in close cooperation with the board of directors and audit committee meetings.

The Company has established objectives concerning the holding and use of financial instruments. The underlying basis of these objectives is to manage the financial risks faced by the Company.

Management of Capital Risk and Financial Risk

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance. The Company monitors capital using a gearing ratio, which is net debt divided by total capital. For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. Net debt is calculated as borrowing (refer note 19,25,26 and 27) less cash and cash equivalents.

Notes

to the standalone financial statements and other explanatory information

The gearing ratio at the end of the reporting period was as follows:

	Amount ₹ in Lakhs		
	As at 31 March 2017	As at 31 March 2016	As at 1 April 2015
Debt	69,547	42,032	47,171
Less: Cash and cash equivalents	(131)	(1,719)	(2,704)
Net debt	69,416	40,313	44,467
Equity	135,041	120,499	102,776
Net debt to equity	51.40%	33.46%	43.27%

Financial risk management objectives

Based on the operations of the Company, Management considers that key financial risks that it faces are credit risk, currency risk, liquidity risk and interest rate risk. The objectives under each of these risks are as follows:

- credit risk: minimize the risk of default and concentration.
- currency risk: reduce exposure to foreign exchange movements principally between INR and USD.
- liquidity risk: ensure adequate funding to support working capital and future capital expenditure requirements.
- interest rate risk: mitigate risk of significant change in market rates on the cash flow of issued variable rate debt.

by international credit rating agencies.

The Company from time to time will have significant concentration of credit risk in relation to individual theatrical releases, television syndication deals or digital licenses. This risk is mitigated by contractual terms which seek to stagger receipts and/or the release or airing of content. As at 31 March 2017 66 % (31 March 2016: 84 %; 1 April 2015: 96 %) of trade account receivables were represented by the top 5 customer, out of which as at 31 March 2017 33 % (31 March 2016: 56 %; 1 April 2015: 67 %) of trade account receivables were represented by the related parties. The maximum exposure to credit risk is that shown within the statement of financial position.

Credit Risk

The Company's credit risk is principally attributable to its trade receivables, loans and bank balances. As a number of the Company's trading activities require third parties to report revenues due to the Company this risk is not limited to the initial agreed sale or advance amounts. The amounts shown within the Balance Sheet in respect of trade receivables and loans are net of allowances for doubtful debts based upon objective evidence that the Company will not be able to collect all amounts due.

Trading credit risk is managed on a customer by customer basis by the use of credit checks on new clients and individual credit limits, where appropriate, together with regular updates on any changes in the trading partner's situation. In a number of cases trading partners will be required to make advance payments or minimum guarantee payments before delivery of any goods. The Company reviews reports received from third parties and in certain cases as a matter of course reserve the right within the contracts it enters into to request an independent third party audit of the revenue reporting.

The credit risk on bank balances is limited because the counterparties are banks with high credit ratings as signed

As at 31 March 2017, the Company did not hold any material collateral or other credit enhancements to cover its credit risks associated with its financial assets, except secured debtors.

Currency Risk

The Company is exposed to foreign exchange risk from foreign currency transactions. As a result it faces both translation and transaction currency risks which are principally mitigated by matching foreign currency revenues and costs wherever possible.

The Company has identified that it will need to utilize hedge transactions to mitigate any risks in movements between the US Dollar and the Indian Rupee and has adopted an agreed set of principles that will be used when entering into any such transactions. No such transactions have been entered into to date and the Company has managed foreign currency exposure to date by seeking to match foreign currency inflows and outflows as much as possible such as packing credit repayment in USD is matched with remittances from UAE in USD. Details of the foreign currency borrowings that the Company uses to mitigate risk are shown within Interest Risk disclosures.

Notes

to the standalone financial statements and other explanatory information

As at the Balance Sheet date there were no outstanding forward foreign exchange contracts. The Company adopts a policy of borrowing where appropriate in the local currency as a hedge against translation risk. The table below shows the Company's net foreign currency monetary assets and liabilities position in the main foreign currencies, translated to Indian Rupees(INR) equivalents, as at the year end:

	Amount in Lakhs			
	Net balance receivables / (payables)			
	INR	USD	SGD*	GBP
As at 31 March 2017	8,008	128	0	(3)
As at 31 March 2016	(15,852)	(240)	0	-
As at 1 April 2015	(17,134)	(279)	0	-

*amount represents less than one lakh

The above foreign currency arises when the Company holds monetary assets and liabilities denominated in a currency other than INR.

A uniform decrease of 10% in exchange rates against all foreign currencies in position as of 31 March 2017 would have decreased in the Company's net profit before tax by approximately ₹ 801 Lakhs (2016: gain of ₹ 1,585 Lakhs and 2015: gain of ₹ 1,713 Lakhs). An equal and opposite impact would be experienced in the event of an increase by a similar percentage.

Liquidity risk

The Company manages liquidity risk by maintaining adequate reserves and agreed committed banking facilities. Management of working capital takes account of film release dates and payment terms agreed with customers.

A maturity analysis for financial liabilities is provided below. The amounts disclosed are based on contractual undiscounted cash flows. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rates as at 31 March, in each year.

As at 31 March 2017	Amount ₹ In Lakhs

Borrowing interest payments	5,914	4,485	1,245	184	-
Acceptance	-	-	-	-	-
Trade and other payables	6,429	6,328	101	-	-

Notes

to the standalone financial statements and other explanatory information

At 31 March 2017, the Company had facilities available of ₹ 70,990 Lakhs (31 March 2016: ₹ 44,283 Lakhs, 1 April 2015: ₹ 47,323 Lakhs) and had net undrawn amounts of ₹ 1,444 Lakhs (31 March 2016: ₹ 2,250 Lakhs, 1 April 2015: ₹ 152 Lakhs) available.

Interest rate risk

The Company is exposed to interest rate risk as the Company has borrowed funds at floating interest rates. The risk is managed as the loans are at floating interest rates which is aligned to the market.

A uniform increase of 100 basis in interest rates against all borrowings in position as of 31 March 2017 would have decreased in the Company's net profit before tax by approximately ₹ 213 (2016: net profit before tax of ₹ 63 and 2015: net profit before tax of ₹ 72). An equal and opposite impact would be experienced in the event of a decrease by a similar basis.

47 Disclosure on Specified Bank Notes (SBNs)

During the year, the Company had specified bank notes or other denomination note as defined in the MCA notification G.S.R. 308(E) dated 31 March 2017 on the details of Specified Bank Notes (SBN) held and transacted during the period from 8 November 2016 to 30 December 2016, the denomination wise SBNs and other notes as per the notification is given below:

48 First time adoption of Indian Accounting Standards (Ind AS)

For all periods, up to and including the year ended 31 March 2016, the Company prepared its financial statements in accordance with accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

These financial statements for the year ended 31 March 2017 have been prepared in accordance with Indian Accounting Standards ("Ind-AS") consequent to the notification of The Companies (Indian Accounting Standards) Rules, 2015 (the Rules) issued by the MCA. These are the first Ind-AS financial statements of the Company, wherein the Company has restated its Balance Sheet as at 1 April 2015 and financial statements for the year ended and as at 31 March 2016 also as per Ind-AS.

Consequently, in preparing these Ind AS financial statements, the Company has availed certain exemptions and complied with the mandatory exceptions provided in Ind AS 101, as explained below.

A Exemptions and Exceptions availed:

Set out below are the Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

(a) Deemed Cost

There is no change in the functional currency of the Company and accordingly, the Company has opted para D7 AA and accordingly considered the carrying value of property, plant and equipments and Intangible assets as deemed cost as at transition date.

(b) Classification and measurement of Financial Assets

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist on the date of transition to Ind AS.

(c) Business Combinations

Ind AS 103 on Business Combinations has not been applied to acquisitions of businesses that occurred before 1 April 2015. Use of this exemption means that assets and liabilities acquired under a business combination and eligible for recognition under Ind

Notes

to the standalone financial statements and other explanatory information

AS will be the Indian GAAP carrying values on the acquisition date.

(d) Share based options

Ind AS 102 on share-based payment has not been applied to equity instruments in share-based payment transactions that vested before the date of transition to Ind AS.

(e) Leases

Appendix C to Ind AS 17 requires the Company to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. However, the Company has used Ind AS 101 exemption and assessed all relevant arrangements for classification of leases based on facts and circumstances existing at the date of transition to Ind AS.

(f) Investment in subsidiaries

In accordance with the exemption given in Ind AS 101, the Company has recorded investment in subsidiaries at deemed cost i.e. Indian GAAP carrying amount except investment in Universal Power Systems Private Limited. (Refer note 5)

(g) Estimates

Upon an assessment of the estimates made under Previous GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS except as a part of transition where following estimates were required by Ind AS and not required by Indian GAAP Impairment of financial assets based on expected credit loss model.

B. Reconciliation between Indian GAAP and Ind-AS.

Notes

to the standalone financial statements and other explanatory information

C Notes to first time adoption of Ind AS:

(i) MAT Credit

Under Previous GAAP, MAT credit was disclosed under noncurrent assets. In accordance with Ind AS 12, deferred tax asset shall include any carry forward unused tax credits. Hence, MAT credit entitlement has been included in deferred tax liabilities.

(ii) Expected Credit Loss

Under Indian GAAP allowances of doubtful debt was provided as per management estimate whereas under Ind AS allowances are based on expected credit loss model as per Ind - AS 109 - Financial Instruments.

(iii) ESOP accounting

Under Ind-AS, it is measured using grant date fair value whereas under Indian GAAP, ESOP liability was accounted for at intrinsic value.

(iv) Equity settled business combination

Under Ind-AS, the same has been accounted for at fair value of equity shares on the acquisition date as per Ind-AS 103 - Business Combinations whereas under Indian GAAP, the acquisition of a subsidiary by issuing equity shares to the transferor was accounted for at fair value of those equity shares on the date of agreement.

(v) Other comprehensive income (OCI)

Ind-AS requires preparation of Statement of Other Comprehensive Income in addition to Statement of Profit and Loss. Re-Measurement gain/loss on defined benefit plans earlier accounted for in statement of profit and loss under Indian GAAP has been reclassified to OCI as required by Ind-AS 19 - Employee Benefits.

(vi) Borrowings

Under Indian GAAP, transaction costs incurred in connection with borrowings were disclosed as prepaid expenses and charged to statement of profit and loss on a systematic basis. Under Ind AS, borrowings are recorded initially at fair value less transaction costs and are subsequently measured at amortised cost as per the Effective Interest Rate (EIR) method.

(vii) Deferred Tax

Deferred tax under Ind AS has been recognized for temporary differences between tax base and the book base of the relevant assets and liabilities. Under IGAAP the deferred tax was accounted based on timing differences impacting the profit or loss for the period. Deferred tax on aforesaid Ind AS adjustments has been created for both periods - as on 31 March 2016 and 1 April 2015.

(viii) Effect of Ind AS adoption on Statement of Cash Flow

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31 March 2016 as compared with the Indian GAAP.

(ix) Retained Earnings

Retained earnings as at 1 April 2015 has been adjusted consequent to the above Ind AS transition adjustments.

Independent Auditor's Report

To the Members of Eros International Media Limited

Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of Eros International Media Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2017, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ('the Act') that give a true and fair view of the consolidated state of affairs (consolidated financial position), consolidated profit and loss (consolidated financial performance including other comprehensive income), consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The Holding Company's Board of Directors and the respective Board of Directors/management of the subsidiaries included in the Group are responsible for the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. Further, in terms of the provisions of the Act, the respective Board of Directors/management of the companies included in the Group covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting

records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
4. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these consolidated financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
7. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 9 of the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on these consolidated financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated financial position of the Group as at 31 March 2017, and their consolidated profit (consolidated financial performance including other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matter

9. We did not audit the financial information of ten subsidiaries, whose financial information reflect total assets of ₹ 18,495 lakhs and net assets of ₹ (2,451) lakhs as at 31 March 2017, total revenues of ₹ 5,213 lakhs and net cash outflows amounting to ₹ 169 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

10. The Company had prepared separate sets of consolidated financial statements for the year ended 31 March 2016 and 31 March 2015 in accordance with Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) on which we issued auditor's reports dated 27 May 2016 and 29 May 2015 respectively. These separate sets of consolidated financial statements have been adjusted for the differences in the accounting principles adopted by the

Company on transition to Ind AS, which have also been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

11. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on separate financial statements and other financial information of the subsidiaries, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
 - The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under Section 133 of the Act;
 - On the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company and the reports of the other statutory auditors of its subsidiary companies covered under the Act, none of the directors of the Group companies covered under the Act, are disqualified as on 31 March 2017 from being appointed as a director in terms of Section 164(2) of the Act.
 - With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company, and its subsidiary companies covered under the Act and the operating effectiveness of such controls, refer to our separate report in 'Annexure A';

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries:

(i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 38 to the consolidated financial statements.

(ii) The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies covered under the Act during the year ended 31 March 2017;

(iv) These consolidated financial statements have made requisite disclosures as to holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 by the Holding Company, and its subsidiary companies covered under the Act. Based on the audit procedures performed and taking into consideration the information and explanations given to us and on consideration of the reports of the other auditors on separate financial statements and other financial information, in our opinion, these disclosures are in accordance with the books of account maintained by the respective companies.

Annexure A to the Independent Auditor's Report of even date to the members of Eros International Media Limited on the consolidated financial statements for the year ended 31 March 2017

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Eros International Media Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as at and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal control criteria considering the essential components of Internal control as stated in Guidance Note issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the IFCoFR of the Holding Company and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to

the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on IFCoFR of the subsidiary companies, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2017, based on the internal control criteria considering the essential components of Internal control as stated in Guidance Note issued by ICAI.

Other Matters

9. We did not audit the IFCoFR in so far as it relates to seven subsidiary companies, which are companies covered under the Act, whose financial statements reflect total assets of ₹ 11,843 lakhs and net assets of ₹ 800 lakhs as at 31 March 2017, total revenues of ₹ 5,195 lakhs and net cash outflows

amounting to ₹ 155 lakhs for the year ended on that date, as considered in the consolidated financial statements. The IFCoFR in so far as it relates to such subsidiary companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the IFCoFR for the Holding Company and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies is based solely on the reports of the auditors of such companies. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

Summary of Significant Accounting Policies

and explanatory notes to the consolidated financial statements

1. Corporate Information and Significant accounting policies

Corporate Information

Eros International Media Limited (the 'Company' or 'parent') was incorporated in India, under the Companies Act, 1956. The Company and its subsidiaries including step down subsidiaries (hereinafter collectively referred to as the "Group") is a global player within the Indian media and entertainment industry and is primarily engaged in the business of film production, exploitation and distribution. It operates on a vertically integrated studio model controlling content as well as distribution and exploitation across multiple formats globally, including cinema, digital, home entertainment and television syndication. Its shares are listed on leading stock exchanges in India (BSE Scrip Code: 533261; NSE Scrip Code: EROSMEDIA).

The Group is engaged in the business of sourcing Indian film content either through acquisition, co-production or production of such films, and subsequently exploiting and distributing such films in India through music release, theatrical distribution, DVD and VCD release, television licensing and new media distribution avenues such as cable or DTH licensing; and trading and exporting overseas rights to its parent Eros Worldwide FZ LLC. The Group also includes Ayngaran group of companies which is involved in the acquisition, production and distribution of Tamil films worldwide.

These consolidated financial statements were authorised for issue in accordance with a resolution of the Directors on 26 May 2017.

Basis of preparation

For all periods, up to and including the year ended 31 March 2016, the Group prepared its consolidated financial statements in accordance with accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

These consolidated financial statements for the year ended 31 March 2017 have been prepared in accordance with Indian Accounting Standards ("Ind-AS") consequent to the notification of The Companies (Indian Accounting Standards) Rules, 2015 (the Rules) issued by Ministry of Corporate Affairs. These are the first Ind-AS consolidated financial statements of the Group, wherein the Group has restated its consolidated balance sheet as at 1 April 2015 and consolidated financial statements for the year ended and as at 31 March 2016 also as per Ind-AS.

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- ◉ Employee Stock Option Compensation measured at fair value (refer accounting policy on ESOP).
- ◉ Accounting of Business Combinations at fair value (refer accounting policy on Business Combinations) and

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Act. The Group considers 12 months to be its normal operating cycle.

Principles of consolidation

The Group financial statements consolidate results of the Company and entities controlled by the Company i.e. its subsidiary undertakings. Control exists when the Company has existing rights that give the Company the current ability to direct the activities which affect the entity's returns; the Company is exposed to or has rights to a return which may vary depending on the entity's performance; and the Company has the ability to use its powers to affect its own returns from its involvement with the entity.

Unrealized gains on transactions between the Group and its subsidiaries are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Business combinations are accounted for under the acquisition method. The acquisition method involves the recognition at fair value of all identifiable assets and liabilities, including contingent liabilities of the subsidiaries, at the acquisition date, regardless of whether or not they were recorded in the financial statements of the subsidiary prior to acquisition. On initial recognition, the assets and liabilities of the subsidiaries are included in the consolidated balance sheet at their fair values, which are also used as the bases for subsequent measurement in accordance with the Group accounting policies. Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred. Goodwill is stated after separating out identifiable intangible assets. Goodwill represents the excess of acquisition cost over the fair value of the Group's share of the identifiable net assets of the acquired subsidiary at the date of acquisition.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

Changes in controlling interest in a subsidiary that do not result in gaining or losing control are not business combinations as defined by Ind AS 103 'Business Combinations'. The Group adopts the "equity transaction method" which regards the transaction as a realignment of the interests of the different equity holders in the Group. Under the equity transaction method an increase or decrease in the Group's ownership interest is accounted for as follows:

- ⦿ the non-controlling component of equity is adjusted to reflect the non-controlling interest revised share of the net carrying value of the subsidiaries net assets;
- ⦿ the difference between the consideration received or paid and the adjustment to non-controlling interests is debited or credited to equity;
- ⦿ no adjustment is made to the carrying amount of goodwill or the subsidiaries' net assets as reported in the consolidated financial statements; and
- ⦿ no gain or loss is reported in the Statement of profit and loss.

Significant accounting policies

a. Revenue recognition

Revenue is recognized, net of sales related taxes, when persuasive evidence of an arrangement exists, the fees are fixed or determinable, the product is delivered or services have been rendered and collectability is reasonably assured. The Group considers the terms of each arrangement to determine the appropriate accounting treatment.

The following additional criteria apply in respect of various revenue streams within filmed entertainment:

Theatrical — Contracted minimum guarantees are recognized on the theatrical release date. The Group's share of box office receipts in excess of the minimum guarantee is recognized at the point they are notified to the Group.

Television — License fees received in advance which do not meet all the above criteria are included in deferred income until the above criteria is met.

Other — DVD, CD and video distribution revenue is recognized on the date the product is delivered or if licensed in line with the above criteria. Provision is made for physical returns where applicable. Digital and ancillary media revenues are recognized at the earlier of when the content is accessed or declared.

Visual effects, production and other fees for services rendered by the Group and overhead recharges are recognized in the period in which they are earned and in certain cases, the stage of production is used to determine the proportion recognized in the period.

Other income

Dividend income is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

b. Property, plant and equipment and depreciation

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes etc. up to the date the asset is ready for its intended use. Depreciation is provided under written down value method at the rates and in the manner prescribed under Schedule II to the Companies Act, 2013.

c. Intangible assets

Intangible assets acquired by the Group are stated at cost less accumulated amortisation less impairment loss, if any, (film production cost and content advances are transferred to film and content rights at the point at which content is first exploited).

Investments in films and associated rights, including acquired rights and distribution advances in respect of completed films, are stated at cost less amortisation less provision for impairment. Costs include production costs, overhead and capitalized interest costs net of any amounts received from third party investors. A charge is made to write down the cost of completed rights over the estimated useful lives, writing off more in year one which recognizes initial income flows and then the balance over a period of up to nine years, except where the asset is not yet available for exploitation. The average life of the assets is the lesser of 10 years or the remaining life of the content rights. The amortisation charge is recognized in the Statement of profit and loss within film right costs including amortisation costs. The determination of useful life is based upon Management's judgment and includes assumptions on the timing and future estimated revenues to be generated by these assets, which are summarized in Note 3.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

Intangible assets comprising film scripts and related costs are stated at cost less amortisation less provision for impairment. The script costs are amortized over a period of 3 years on a straight-line basis and the amortisation charge is recognized in the Statement of profit and loss within film right costs including amortisation costs. The determination of useful life is based upon Management's estimate of the period over which the Company explores the possibility of making films using the script.

Other intangible assets, which comprise internally generated and acquired software used within the Entity's digital, home entertainment and internal accounting activities, are stated at cost less amortisation less provision for impairment. A charge is made to write down the cost of completed rights over the estimated useful lives except where the asset is not yet available for exploitation. The average life of the assets is the lesser of 3 years or the remaining life of the asset. The amortisation charge is recognized in the Statement of profit and loss within depreciation and amortisation expenses.

Goodwill represents excess of the consideration transferred in a business combination over the fair value of the Group's share of the identifiable net assets acquired. Goodwill is carried at cost less accumulated impairment losses. Gain on bargain purchase is recognized immediately after acquisition in the consolidated Statement of profit and loss.

d. Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at the cash generating unit level. Goodwill is allocated to those cash generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors the related cash flows.

Goodwill is tested for impairment at least annually. All other individual assets or cash generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling

price of assets and their 'value in use'. Impairment losses recognized for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Film and content rights are stated at the lower of unamortized cost and estimated recoverable amounts. In accordance with Ind AS 36 'Impairment of Assets', film content costs are assessed for indication of impairment on a library basis as the nature of the Group's business, the contracts it has in place and the markets it operates in do not yet make an ongoing individual film evaluation feasible with reasonable certainty. Impairment losses on content advances are recognized when film production does not seem viable and refund of the advance is not probable.

With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist.

e. Borrowing costs

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost with any difference between the proceeds (net of transaction costs) and the redemption value recognised in the Statement of profit and loss within Finance costs over the period of the borrowings using the effective interest method. Finance costs in respect of film productions and other assets which take a substantial period of time to get ready for use or for exploitation are capitalized as part of the assets.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date.

f. Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on risk exposure arising from financial assets like debt instruments measured at amortised cost e.g., trade receivables and deposits.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of profit and

loss. This amount is reflected under the head 'other expenses' in the Statement of profit and loss.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

g. Inventories

Inventories primarily comprise of music CDs and DVDs, and are valued at the lower of cost and net realizable value. Cost in respect of goods for resale is defined as purchase price, including appropriate labour costs and other overhead costs. Cost in respect of raw materials is purchase price.

Purchase price is assigned using a weighted average basis. Net realizable value is defined as anticipated selling price or anticipated revenue less cost to completion.

h. Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is more likely than not that an outflow of resources will be required to settle the obligations and can be reliably measured. Provisions are measured at management's best estimate of the expenditure required to settle the obligations at the statement of financial position date and are discounted to present value where the effect is material.

i. Retirement and other employee benefits

Defined contribution plan

Provident fund and National Pension scheme: The Group's contributions paid or payable during the year to the provident fund, employee's state insurance corporation and National pension scheme are recognized in the Statement of profit and loss. This fund is administered by the respective Government authorities, and the Group has no further obligation beyond making its contribution, which is expensed in the year to which it pertains.

Defined benefit plan

Gratuity: The Group's liability towards gratuity is determined using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The cost for past services is recognized on

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

a straight-line basis over the average period until the amended benefits become vested. Re-measurement gains and losses are recognized immediately in the Other Comprehensive Income as income or expense and are not reclassified to Statement of profit and loss in subsequent periods. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Compensated absences: Accumulated compensated absences are expected to be availed or encashed within 12 months from the end of the year and are treated as short-term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Employee stock option compensation

In accordance with Ind AS 102 'Share Based Payments', the fair value of shares or options granted is recognized as personnel costs with a corresponding increase in equity. The fair value is measured at the grant date and spread over the period during which the recipient becomes unconditionally entitled to payment unless forfeited or surrendered.

The fair value of share options granted is measured using the Black Scholes model, each taking into account the terms and conditions upon which the grants are made. At each balance sheet date, the Group revises its estimate of the number of equity instruments expected to vest as a result of non-market based vesting conditions. The amount recognized as an expense is adjusted to reflect the revised estimate of the number of equity instruments that are expected to become exercisable, with a corresponding adjustment to equity reserves. The Group's share option plan does not feature any cash settlement option.

Upon exercise of share options, the proceeds received net of any directly attributable transaction costs up to the nominal value of the shares are allocated to share capital with any excess being recorded as securities premium.

j. Leases

A lease is classified at the inception date as a finance lease or an operating lease. Leases in which significantly all the risks and rewards incidental to ownership are transferred to the lessee are classified as finance leases. All other leases are operating leases. Payments under operating leases are charged to the Statement of profit and loss on a straight-line basis over the period of the lease.

k. Foreign currency

Transactions in foreign currencies are translated at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities in foreign currencies are translated at the prevailing rates of exchange at the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were initially recorded are recognized in the Statement of profit and loss in the period in which they arise. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

The assets and liabilities in the financial statements of foreign subsidiaries are translated at the prevailing rate of exchange at the balance sheet date. Income and expenses are translated at the annual average exchange rate. The exchange differences arising from the retranslation of the foreign operations are recognized in other comprehensive income and taken to the "currency translation reserve" in equity.

On disposal of a foreign operation the cumulative translation differences (including, if applicable, gains and losses on related hedges) are transferred to the Statement of profit and loss as part of the gain or loss on disposal.

Items included in the Consolidated financial statements of each of the Group's entities are measured using

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

the currency of the primary economic environment in which the entity operates ('the functional currency'). The Consolidated financial statements are presented in Indian Rupee (INR - ₹) which is Company's functional and presentation currency.

I. Financial instrument

Non-derivative financial instruments

Financial assets and financial liabilities are recognized when the Group becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets or liabilities (other than financial assets and liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized immediately in the statement of profit or loss. Financial assets and financial liabilities are offset against each other and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

A financial instrument is measured at fair value through profit or loss if:

- ⦿ it has been acquired principally for the purpose of selling/repurchasing it in the near term;
- ⦿ on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent pattern of short term profit taking; or
- ⦿ it is a derivative that is not designated in a hedging relationship.

The fair value of financial instruments denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore for financial instruments that are classified as fair value through profit and loss, the exchange component is recognized in profit and loss.

Financial Assets

Financial assets are divided into the following categories:

- ⦿ financial assets carried at amortised cost
- ⦿ financial assets at fair value through other comprehensive income
- ⦿ financial assets at fair value through profit and loss;

Financial assets are assigned to the different categories by management on initial recognition, depending on the nature and purpose of the financial assets. The designation of financial assets is re-evaluated at every reporting date at which a choice of classification or accounting treatment is available.

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These are non-derivative financial assets that are not quoted in an active market. Loans and receivables (including trade and other receivables, bank and cash balances) are measured subsequent to initial recognition at amortized cost using the effective interest method, less provision for impairment. Any change in their value through impairment or reversal of impairment is recognized in the Statement of profit and loss.

In accordance with Ind AS 109 "Financial Instruments", the Group recognizes impairment loss allowance on trade receivables and content advances based on historically observed default rates. Impairment loss allowance recognized during the year is charged to Statement of profit and loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are non-derivative financial assets held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. It includes non-derivative financial assets that are either designated as such or do not qualify for inclusion in any of the other categories of financial assets. Gains and losses arising from investments classified under this category is recognized in the Statement of profit and loss when they are sold or when the investment is impaired.

In the case of impairment, any loss previously recognized in other comprehensive income is transferred to the Statement of profit and loss. Impairment losses recognized in the Statement of profit and loss on equity instruments are not reversed through the Statement of profit and loss. Impairment losses recognized previously on debt securities are reversed through the Statement of profit and loss when the increase can be related objectively to an event occurring after the impairment loss was recognized in the Statement of profit and loss.

When the Group considers that fair value of financial assets can be reliably measured, the fair values of financial instruments that are not traded in an active market are determined by using valuation techniques. The Group applies its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at each balance sheet date. Equity instruments measured at fair value through profit or loss that do not have a quoted price in an active market and whose fair value cannot be reliably measured are measured at cost less impairment at the end of each reporting period.

An assessment for impairment is undertaken at least at each balance sheet date.

A financial asset is derecognized only where the contractual rights to the cash flows from the asset expire or the financial asset is transferred and that transfer qualifies for derecognition. A financial asset is transferred if the contractual rights to receive the cash flows of the asset have been transferred or the Group retains the contractual rights to receive the cash flows of the asset but assumes a contractual obligation to pay the cash flows to one or more recipients. A financial asset that is transferred qualifies for derecognition if the Group transfers substantially all the risks and rewards of ownership of the asset, or if the Group neither retains nor transfers substantially all the risks and rewards of ownership but does transfer control of that asset.

Financial liabilities

Financial liabilities are classified as either 'financial liabilities at fair value through profit or loss' or 'other financial liabilities'. Financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities are classified as at fair value through profit or loss when the financial liability is held for trading such as a derivative, except for a designated and effective hedging instrument, or if upon initial recognition it is thus designated to eliminate or significantly reduce measurement or recognition inconsistency or it forms part of a contract containing one or more embedded derivatives and the contract is designated as fair value through profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value. Any gains or losses arising of held for trading financial liabilities are recognized in profit or loss. Such gains or losses incorporate any interest paid and are included in the "other gains and losses" line item.

Other financial liabilities (including borrowing and trade and other payables) are subsequently measured at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

A financial liability is derecognized only when the obligation is extinguished, that is, when the obligation is discharged or cancelled or expires. Changes in fair value of liabilities are included in Statement of profit and loss.

m. Taxes

Taxation on profit and loss comprises current tax and deferred tax. Tax is recognized in the Statement of profit and loss except to the extent that it relates to items recognized directly in equity or other comprehensive income in which case tax impact is

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

also recognized in equity or other comprehensive income.

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted at the balance sheet date along with any adjustment relating to tax payable in previous years.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled in the appropriate territory.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax in respect of undistributed earnings of subsidiaries is recognized except where the Group is able to control the timing of the reversal of the temporary difference and the temporary difference will not reverse in the foreseeable future. Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which temporary differences can be utilized.

Minimum alternate tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. MAT credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, which is the period for which MAT credit is allowed to be carried forward. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the

effect that the Company will pay normal income tax during the specified period.

n. Earnings per share

Basic earnings per share is computed using the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is computed by considering the impact of the potential issuance of ordinary shares, on the weighted average number of shares outstanding during the period except where the results would be antidilutive.

o. Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short term highly liquid investments which are readily convertible into known amounts of cash and are subject to insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet. Deposits held with banks as security for overdraft facilities are included in restricted deposits held with bank.

p. Segment reporting

Ind-AS 108 "Operating Segments" requires operating segments to be identified on the same basis as is used internally for the review of performance and allocation of resources by the Chief Operating Decision Maker. The revenues of films are earned over various formats; all such formats are functional activities of filmed entertainment and these activities take place on an integrated basis. The management team reviews the financial information on an integrated basis for the Group as a whole with respective heads of business for each region and in accordance with Ind-AS 108, the Group provides a geographical split as it considers that all activities fall within one segment of business which is filmed entertainment. The management team also monitors performance separately for individual films or for at least 12 months after the theatrical release.

The Group has identified three geographic markets: India, United Arab Emirates and Rest of the world.

q. Standards Issued but not yet Effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are applicable to the Group from April 1, 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of consolidated financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

The Group is evaluating the requirements of the amendment and their effect on the consolidated financial statements.

Significant accounting judgements, estimates and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions, as described below, that affect the reported amounts and the disclosures. The Group based its assumptions and estimates on parameters available when

the consolidated financial statements were prepared and reviewed at each balance sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

a. Intangible assets

The Group is required to identify and assess the useful life of intangible assets and determine their income generating life. Judgment is required in determining this and then providing an amortisation rate to match this life as well as considering the recoverability or conversion of advances made in respect of securing film content or the services of talent associated with film production.

Accounting for the film content requires management's judgment as it relates to total revenues to be received and costs to be incurred throughout the life of each film or its license period, whichever is the shorter. These judgments are used to determine the amortisation of capitalized film content costs. The Group uses a stepped method of amortisation on first release film content writing off more in year one which recognizes initial income flows and then the balance over a period of up to nine years. In the case of film content that is acquired by the Group after its initial exploitation, commonly referred to as Library, amortisation is spread evenly over the lesser of 10 years or the license period. Management's policy is based upon factors such as historical performance of similar films, the star power of the lead actors and actresses and others. Management regularly reviews, and revises when necessary, its estimates, which may result in a change in the rate of amortisation and/or a write down of the asset to the recoverable amount.

The Group tests annually whether intangible assets including goodwill have suffered any impairment, in accordance with the accounting policy. These calculations require judgments and estimates to be made, and in the event of an unforeseen event these judgments and assumptions would need to be revised and the value of the intangible assets could be affected. There may be instances where the useful life of an asset is shortened to reflect the uncertainty of its estimated income generating life.

b. Employee benefit plans

The cost of the employment benefit plans and their present value are determined using actuarial valuations which involves making various assumptions that may differ from actual developments in the future.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

c. Fair value measurement of Employee shares based compensation plan

The fair value of ESOP liability is determined using valuation methods which involves making various assumptions that may differ from actual developments in the future.

d. Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

e. Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and

quantification of the liability require the application of judgment to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

f. Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

43 Segment Reporting

Description of segment and principal activities

The Company acquires, co-produces and distributes Indian films in multiple formats worldwide. Film content is monitored and strategic decisions around the business operations are made based on the film content, whether it is new release or library. Hence, Management identifies only one operating segment in the business, film content. The Company distributes film content to the Indian population in India and worldwide and to non-Indian consumers who view Indian films that are subtitled or dubbed in local languages. As a result of these distribution activities, the management examines the performance of the business from a geographical market perspective.

46 Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the balance sheet are grouped into three Levels of a fair value hierarchy. The three Levels are defined based in the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability

47 Financial instruments and Risk management

The Group is exposed to various risks in relation to financial instruments. The Group's financial assets and liabilities by category are summarised in note. The main types of risks are market risk, credit risk and liquidity risk.

The Group's risk management is coordinated in close cooperation with the board of directors and audit committee meetings.

The Group has established objectives concerning the holding and use of financial instruments.

The underlying basis of these objectives is to manage the financial risks faced by the Group.

Formal policies and guidelines have been set to achieve these objectives. The Group does not enter into speculative arrangements or trade in financial instruments and it is the Group's policy not to enter into complex financial instruments unless there are specific identified risks for which such instruments help mitigate uncertainties.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

Management of Capital Risk and Financial Risk

The Group manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance. The Group monitors capital using a gearing ratio, which is net debt divided by total capital. For the purpose of the Group's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Group. Net debt is calculated as borrowing (refer note 17,22,23 and 25) less cash and cash equivalents.

The gearing ratio at the end of the reporting period was as follows:

	Amount ₹ in lakhs		
	As at 31 March 2017	As at 31 March 2016	As at 1 April 2015
Debt	70,969	42,134	49,146
Less: Cash and bank balances	(13,417)	(29,210)	(15,875)
Net debt	57,552	12,924	33,271
Equity	200,440	175,046	142,273
Net debt to equity	28.71%	7.38%	23.39%

Financial risk management objectives

Based on the operations of the Group, Management considers that key financial risks that it faces are credit risk, currency risk, liquidity risk and interest rate risk. The objectives under each of these risks are as follows:

- credit risk: minimize the risk of default and concentration.
- currency risk: reduce exposure to foreign exchange movements principally between ₹ and USD.
- liquidity risk: ensure adequate funding to support working capital and future capital expenditure requirements.
- interest rate risk: mitigate risk of significant change in market rates on the cash flow of issued variable rate debt.

Credit Risk

The Group's credit risk is principally attributable to its trade receivables, loans and bank balances. As a number of the Group's trading activities require third parties to report revenues due to the Group this risk is not limited to the initial agreed sale or advance amounts. The amounts shown within the Balance Sheet in respect of trade receivables and loans are net of allowances for doubtful debts based upon objective evidence that the Group will not be able to collect all amounts due.

Trading credit risk is managed on a customer by customer basis by the use of credit checks on new clients and individual credit limits, where appropriate, together with regular updates on any changes in the trading partner's situation. In a number of cases trading partners will

be required to make advance payments or minimum guarantee payments before delivery of any goods. The Group reviews reports received from third parties and in certain cases as a matter of course reserve the right within the contracts to request an independent third party audit of the revenue reporting.

The credit risk on bank balances is limited because the counterparties are banks with high credit ratings as signed by international credit rating agencies.

The Group from time to time will have significant concentration of credit risk in relation to individual theatrical releases, television syndication deals or digital licenses. This risk is mitigated by contractual terms which seek to stagger receipts and/or the release or airing of content. As at 31 March 2017 40% (31 March 2016: 69%; 1 April 2015: 68%) of trade receivables were represented by the top 5 customers, out of which as at 31 March 2017 13% (31 March 2016: 20%; 1 April 2015: 21%) of trade receivables were represented by the related parties. The maximum exposure to credit risk is that shown within the statement of financial position.

As at 31 March 2017, the Group did not hold any material collateral or other credit enhancements to cover its credit risks associated with its financial assets except secured trade receivables.

Currency Risk

The Group is exposed to foreign exchange risk from foreign currency transactions. As a result it faces both translation and transaction currency risks which are principally mitigated by matching foreign currency revenues and costs wherever possible.

Summary of Significant Accounting Policies and explanatory notes to the consolidated financial statements

The Group has identified that it will need to utilize hedge transactions to mitigate any risks in movements between the US Dollar and the Indian Rupee and has adopted an agreed set of principles that will be used when entering into any such transactions. No such transactions have been entered till date and the Group has managed foreign currency exposure to date by seeking to match foreign currency inflows and outflows as much as possible such as packing credit repayment in USD is matched with remittances from UAE in USD. Details of the foreign

currency borrowings that the Group uses to mitigate risk are shown within Interest Risk disclosures.

As at the Balance Sheet date there were no outstanding forward foreign exchange contracts. The Group adopts a policy of borrowing where appropriate in the local currency as a hedge against translation risk. The table below shows the Group's net foreign currency monetary assets and liabilities position in the main foreign currencies, translated to Indian Rupees (₹) equivalents, as at the year end:

	Net balance receivables / (payables)				
	₹	USD	SGD*	GBP	EUR
As at 31 March 2017	258	10	0	(3)	(1)
As at 31 March 2016	(21,742)	(334)	-	-	(1)
As at 1 April 2015	(19,358)	(298)	-	(1)	-

*amount represents less than one lakh

The above foreign currency arises when the Group holds monetary assets and liabilities denominated in a currency other than ₹.

A uniform decrease of 10% in exchange rates against all foreign currencies in position as of 31 March 2017 would have decreased in the Group's net profit before tax by approximately ₹ 25 Lakhs (2016: gain of ₹ 2,174 Lakhs and 2015: gain of ₹ 1,936 Lakhs). An equal and opposite impact would be experienced in the event of an increase by a similar percentage.

47 Financial instruments and Risk management (continued)

Liquidity risk

The Group manages liquidity risk by maintaining adequate reserves and agreed committed banking facilities. Management of working capital takes account of film release dates and payment terms agreed with customers.

A maturity analysis for financial liabilities is provided below. The amounts disclosed are based on contractual undiscounted cash flows. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rates as at 31 March, in each year.

Acceptances	-	-	-	-	-
Trade and other payables	23,886	23,785	101	-	-

At 31 March 2017, the Group had facilities available of ₹ 70,990 Lakhs (31 March 2016: ₹ 44,283 Lakhs, 1 April 2015: ₹ 47,323 Lakhs) and had net undrawn amounts of ₹ 1,444 Lakhs (31 March 2016: ₹ 2,250 Lakhs, 31 March 2015: ₹ 152 Lakhs) available.

Interest rate risk

The Group is exposed to interest rate risk as the Group has borrowed funds at floating interest rates. The risk is managed as the loans are at floating interest rates which is aligned to the market.

A uniform increase of 100 basis in interest rates against all borrowings in position as of 31 March 2017 would have decreased in the Group's net profit before tax by approximately ₹ 213 Lakhs (2016: net profit before tax of ₹ 63 Lakhs and 2015: net profit before tax of ₹ 72 Lakhs). An equal and opposite impact would be experienced in the event of a decrease by a similar basis.

48 First time adoption of Indian Accounting Standards (Ind AS)

For all periods, up to and including the year ended 31 March 2016, the Group prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

These financial statements for the year ended 31 March 2017 have been prepared in accordance with Indian Accounting Standards ("Ind-AS") consequent to the notification of The Companies (Indian Accounting Standards) Rules, 2015 (the Rules) issued by the MCA. These are the first Ind-AS financial statements of the Group, wherein the Group has restated its Balance Sheet as at 1 April 2015 and financial statements for the year ended and as at 31 March 2016 also as per Ind-AS.

Consequently, in preparing these Ind AS financial statements, the Group has availed certain exemptions and complied with the mandatory exceptions provided in Ind AS 101, as explained below.

A. Exemptions and Exceptions availed:

Set out below are the Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in

the transition from previous GAAP to Ind AS.

(a) Deemed Cost

There is no change in the functional currency of the Group and accordingly, the Group has opted para D7 AA and accordingly considered the carrying value of property, plant and equipments and Intangible assets as deemed cost as at transition date.

(b) Classification and measurement of Financial Assets

The Group has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist on the date of transition to Ind AS.

(c) Business Combinations

Ind AS 103 on Business Combinations has not been applied to acquisitions of businesses that occurred before 1 April 2015. Use of this exemption means that assets and liabilities acquired under a business combination and eligible for recognition under Ind AS will be the Indian GAAP carrying values on the acquisition date.

(d) Share based options

Ind AS 102 on share-based payment has not been applied to equity instruments in share-based payment transactions that vested before the date of transition to Ind AS.

(e) Leases

Appendix C to Ind AS 17 requires the Group to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. However, the Group has used Ind AS 101 exemption and assessed all relevant arrangements for classification of leases based on facts and circumstances existing at the date of transition to Ind AS.

(f) Estimates

Upon an assessment of the estimates made under previous GAAP, the Group has concluded that there was no necessity to revise such estimates under Ind AS except as a part of transition where following estimates were required by Ind AS and not required by Indian GAAP Impairment of financial assets based on expected credit loss model.

C Notes to first time adoption of Ind AS:

(i) MAT credit

Under Previous GAAP, MAT credit was disclosed under non-current assets. In accordance with Ind AS 12, deferred tax asset shall include any carry forward unused tax credits. Hence, MAT credit entitlement has been included in deferred tax liabilities.

(ii) Expected credit loss

Under Indian GAAP allowances of doubtful debt was provided as per management estimate whereas under Ind AS allowances are based on expected credit loss model as per Ind - AS 109 - Financial Instruments.

(iii) ESOP accounting

Under Ind-AS, it is measured using grant date fair value whereas under Indian GAAP, ESOP liability was accounted for at intrinsic value.

(iv) Equity settled business combination

Under Ind-AS, the same has been accounted for at fair value of equity shares on the acquisition date as per Ind-AS 103 - Business Combinations whereas under Indian GAAP, the acquisition of a subsidiary by issuing equity shares to the transferor was accounted for at fair value of those equity shares on the date of agreement.

(v) Other comprehensive income (OCI)

Ind-AS requires preparation of Statement of Other Comprehensive Income in addition to Statement of profit and loss. Re-Measurement gain/loss on defined benefit plans earlier accounted for in statement of profit and loss under Indian GAAP has been reclassified to OCI as required by Ind-AS 19 - Employee Benefits. The exchange differences arising from the retranslation

of the foreign operations are recognized in other comprehensive income and taken to the "currency translation reserve" in equity.

(vi) Borrowings

Under Indian GAAP, transaction costs incurred in connection with borrowings were disclosed as prepaid expenses and charged to statement of profit and loss on a systematic basis. Under Ind AS, borrowings are recorded initially at fair value less transaction costs and are subsequently measured at amortised cost as per the Effective Interest Rate (EIR) method.

(vii) Deferred tax

Deferred tax under Ind AS has been recognized for temporary differences between tax base and the book base of the relevant assets and liabilities. Under IGAAP the deferred tax was accounted based on timing differences impacting the profit or loss for the period. Deferred tax on aforesaid Ind AS adjustments has been created for both periods - as on 31 March 2016 and 1 April 2015.

(viii) Effect of Ind AS adoption on Statement of cash flow

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31 March 2016 as compared with the Indian GAAP.

(ix) Retained earnings

Retained earnings as at 1 April 2015 has been adjusted consequent to the above Ind AS transition adjustments.

Item Nos. 5 & 6:

Stock option is an effective instrument to align the interests of employees with those of the company. The Company believes that this provides an opportunity to employees to participate in the growth of the Company, besides creating long-term wealth in their hands. "Employee Stock Option Scheme", being a reward system for employees, help the companies to attract, retain and motivate the best available talent in the increasingly competitive environment.

With the above objectives in mind the Board of Directors of the Company, at their meeting held on 26 May 2017, have approved the broad framework of Employee Stock Option Scheme for the Company which is in accordance with Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ("SEBI SBEB Regulations") and has proposed to the shareholders to approve the new Eros International Media Limited - Employee Stock Option Scheme 2017 (hereinafter referred to as "the EROS ESOS 2017" / "ESOS Scheme") for the benefit of eligible employees of the Company and employees of the existing and future subsidiary & holding companies and such other persons (including directors but not Independent Directors or any persons belonging to promoter or promoters group) as may be permitted from time to time, under prevailing laws, rules and regulations and/or amendment thereto from time to time.

The main features of the EROS ESOS 2017 are as under:

a) Brief description of the Scheme:

In order to encourage employee participation and value sharing with the permanent employees of the Company, its subsidiary companies, holding companies and such other persons (including the Directors except independent directors and promoters and promoters group), the Board of Directors vide its resolution dated 26 May 2017 have approved the new Eros International Media Limited - Employee Stock Option Scheme 2017 ("EROS ESOS 2017") and have recommended the shareholders to approve the same.

The said Scheme is in accordance with Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ("SEBI SBEB Regulations") and applicable provisions of the Companies Act, 2013 and rules thereto.

b) Total number of options to be granted:

The aggregate stock units proposed to be granted under the proposed EROS ESOS 2017 from time to time, shall not, upon exercise, exceed 5% of the issued, paid-up and subscribed capital of the Company as on the date of passing of this resolution.

Notice (contd.)

Vested options that lapse due to non-exercise or unvested options that get cancelled due to resignation/ termination/ superannuation etc. of the employees or otherwise, would be available for being re-granted at a future date.

In case of any corporate action such as rights issues, bonus issues, merger and sale of division of the Company or such other actions, a fair and reasonable adjustment shall be made to the options granted. Accordingly, the ceiling of 5% equity shares shall be deemed to be increased to the extent of such additional equity shares issued.

c) Identification of classes of employees entitled to participate in the Scheme:

The EROS ESOS 2017 shall extend to all the Present and future employees of the Company, to the employees of its existing and future subsidiaries and holding Company in India or outside India including its directors, whether whole time or not, but excluding Independent Directors and promoters, as may be identified by the Board or Committee.

d) Requirements of vesting, period of vesting and the maximum period within which the stock options shall be vested:

Fair Value method or any other method as may be prescribed by Ind-AS or SEBI Regulations from time to time.

e) Exercise price or pricing formula:

The Nomination and Remuneration Committee is authorized to determine the exercise price for the Options in accordance with Regulation 17 of the SEBI SBEB Regulations, i.e. in conformity with the applicable Guidance Note on Accounting for employee share-based Payments ("Guidance Note") or applicable statutory enactment as may be prescribed by the Institute of Chartered Accountants of India ("ICAI") from time to time, including the disclosure requirements prescribed therein. However, in any case, the exercise price shall not be less than the face value of the equity shares of the Company.

f) Exercise period and process of exercise:

The stock options granted under EROS ESOS 2017 shall have no lock-in after the options are vested. The Vested Options would be eligible to be exercised on the Vesting Date itself. On Vesting, the Options may be Exercised by the Option Grantee at any time within the period determined by the Nomination and Remuneration Committee from time to time subject to a maximum period of 5 years from the date of Vesting of the respective Options.

The ESOS Grantees may exercise units by addressing a communication to the Compliance Officer in the prescribed Form. The ESOS Grantee, shall, at the time of exercise

(a) mention the number of units that he/she is willing to exercise under the ESOS 2017; (b) state his/her Demat Account details specifying Depository Participant (D.P.) ID No. and Client ID No. to which the equity shares shall be transferred; (c) tender an amount equal to the aggregate exercise price payable in respect of the stock options exercised; and (d) tender the amount of tax as may be applicable.

g) The appraisal process for determining the eligibility of employees for the scheme:

The stock options to be granted to Employees would be based on the appraisal procedure which shall be determined by the Board of Directors or Nomination and Remuneration Committee, on the basis of work performance, period of service, managerial level, technical knowledge, future potential etc.

The Board/Nomination and Remuneration Committee may decide to extend the benefits of the EROS ESOS 2017 to new entrants or to existing employees on such basis as it may deem fit. The stock options to be granted to the non-executive (non-independent) directors shall be recommended by the Board of Directors.

h) Maximum number of units to be issued per employee and in aggregate and the maximum quantum of benefits to be provided per employee under the ESOS 2017:

The number of stock options that may be granted to any specific employee under the Scheme shall not, upon exercise, exceed 1% of the issued and paid-up equity share capital of the Company in any financial year. The total number of options to be granted shall not exceed 5% of the paid-up capital of the Company on the date of passing of this resolution. The maximum benefits to be provided per employee shall be the same as the maximum stock options per employee provided hereinabove.

i) Mode of implementation of the Scheme:

The EROS ESOS 2017 shall be implemented and administered directly by the Company.

j) Whether the Scheme involves new issue of shares by the Company or secondary acquisition by the trust or both:

The Scheme involves new issue of shares by the Company upon exercise of options under EROS ESOP 2017.

k) The amount of loan to be provided for implementation of the scheme(s) by the Company to the trust, its tenure, utilization, repayment terms, etc.:

Not Applicable

Notice (contd.)

l) Maximum percentage of secondary acquisition that can be made by the trust for the purposes of ESOP:

Not Applicable

m) Accounting Policies:

It is hereby confirmed that the Company shall comply with the accounting policies specified in Clause 15 of the SEBI SBEB Regulations, in respect of the shares issued under ESOS 2017.

n) Method of Valuation:

Fair value method or any other method as may be prescribed by Ind-As or SEBI regulations from time to time.

o) Condition under which option vested may lapse:

As per EROS ESOS 2017

p) Specified time period within which the employee shall exercise the vested options in the event of a proposed termination/resignation of employment:

As per EROS ESOS 2017

q) Other terms:

The EROS ESOS 2017 does not involve acquisition of shares from the Secondary Market and no loan is proposed to be provided by the Company to the employees for exercise of stock options. As per the SEBI Regulations, separate special resolution is required to be passed by the members if the benefits of EROS ESOS 2017 as set out in the Resolution No. 5 of this Notice is extended to the employees of the Subsidiary and Holding companies. Accordingly, separate special resolution seeking the approval of the members for extending the benefits of EROS ESOS 2017 to the employees of subsidiary and

Holding companies as may be decided by the Nomination and Remuneration Committee from time to time is placed before the members.

The Nomination and Remuneration Committee shall have the absolute authority to vary or modify the terms of EROS ESOP 2017 in accordance with the regulations prescribed by SEBI or regulations that may be issued by any appropriate authority from time to time, unless such variation, modification or alteration is detrimental to the interests of the Option Grantee.

Copy of the draft EROS ESOS 2017 is available for inspection by members at the Corporate office of the Company during business hours between 11:00 a.m. to 1:00 p.m. and will also be available at the venue of meeting.

None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise, in the above referred resolution except in their capacity as shareholders and to the extent of the options/shares that may be issued under the Scheme.

The Board commends the Special Resolutions set out at Item Nos. 5 & 6 of the Notice for approval by the shareholders.
